2015	(\$14,648,000)
2016	(\$14,923,000)
2017	(\$14,658,000)
2018	(\$14,538,000)

Fiscal Analysis

The bill would amend Chapter 171 of the Tax Code, regarding the franchise tax, by specifying the receipts to be included in the numerator of the apportionment factor for certain taxable entities. A

taxable entity that is a broadcaster would include receipts from a broadcast or other distribution of film or radio programming by any means in the numerator of the apportionment factor only if the legal domicile of the broadcaster's customer is in this state.

The bill would define "broadcaster", "customer", "film programming", "programming", and "radio programming" for the subsection added by the bill.

The bill would take effect on January 1, 2014, and apply to franchise tax reports due on or after that date.

Methodology

Under current law the receipt from a license to use a copyright is a receipt in this state if the copyrighted material is used in this state. For broadcasting the use of the copyrights for the broadcast is treated as where the consumer views, hears, or otherwise benefits from the broadcast. This bill would source the receipt based on the legal domicile of the customer who, by the definition in the bill, has a direct connection or contractual relationship with the broadcaster. The legal domicile of a corporation or limited liability company is its state of formation. The legal domicile of a partnership, trust, or joint venture is the principal place of business of the partnership, trust, or joint venture. The principal place of business of a partnership, trust, or joint venture is the location of its day-to-day operations.

The estimate fiscal impact the bill is based on franchise tax return and legal domicile information from the Comptroller's data bases for taxable entities that are broadcasters and customers under bill's definition.

Local Government Impact

No fiscal implication to units of local government is anticipated.
