--

The bill would amend the Education Code and Human Resources Code relating to the reporting of child abuse and neglect and to training regarding the recognizing and reporting of child abuse and neglect at schools, institutions of higher education, and other entities.

It is assumed any cost to implement the provisions of the bill would be minimal and can be absorbed within existing resources.

**Local Government Impact**

No significant fiscal implication to units of local government is anticipated.

School districts would incur administrative costs to adopt the policy and to provide training related to reporting of suspected child abuse and neglect to all employees.
