**Fiscal Analysis**

The bill would amend the Occupations Code relating to the number and composition of the board members of the Board of Pharmacy. The bill would provide two additional board members appointed by the Governor with the advice and consent of the Senate.

The bill would take effect September 1, 2013.

### **Methodology**

The Board of Pharmacy assumes additional costs would be realized with implementing the provisions of the bill related to board member travel, per diem reimbursement, and other related expenses to accommodate the two additional board members.

The agency estimates an annual cost of \$5,300 per board member for travel costs for members to attend board meetings, conferences, and informal conferences each year and an annual cost of \$500 per board member for conference registration fees. In addition, the agency estimates an annual cost of \$360 per board member for compensatory per diem costs (\$30 per day for an estimated 12 days per year). The agency also estimates a one-time cost of \$2,800 in fiscal year 2014 to purchase computer equipment for the additional board members and a subsequent computer equipment replacement cost of \$2,000 in fiscal year 2018 to align with the agency's four year replacement schedule recommended by the Department of Information Resources.

This analysis assumes that any increased costs to the Board of Pharmacy, which is statutorily required to generate sufficient revenue to cover its costs of operation, would be offset by an increase in fee generated revenue.
