### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Despite the widely publicized nature of police shootings, interested parties contend that there is no way to know how many shootings occur each year because current law does not require police shootings to be reported. These parties believe that this lack of information prevents policymakers and researchers from adequately studying this issue. H.B. 1036 addresses this concern.

H.B. 1036 amends current law relating to reporting requirements for certain injuries or deaths caused by peace officers and for certain injuries or deaths of peace officers.

### **RULEMAKING AUTHORITY**
