AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In 1985, the legislature required that cases transferred from a county court to a district court include several documents in paper form. These documents include a certified transcript of the proceedings held in the county court, the original papers filed in the county court, a bill of the costs that have accrued in the county court, and a certified copy of the judgments rendered in the county court that remain unsatisfied.

Interested parties contend that the need to submit these documents in paper form requires a great deal of equipment, paper, and time. In order to save money and increase efficiency, S.B. 1341 authorizes a county court to transfer court records to a district court in electronic form.

As proposed, S.B. 1341 amends current law relating to the electronic transfer of certain court records.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
