

**LEGISLATIVE BUDGET BOARD**  
**Austin, Texas**

**FISCAL NOTE, 84TH LEGISLATIVE REGULAR SESSION**

**April 7, 2015**

**TO:** Honorable Gary Elkins, Chair, House Committee on Government Transparency & Operation

**FROM:** Ursula Parks, Director, Legislative Budget Board

**IN RE:** **HB1542** by Paddie (Relating to the use of digital message display systems in certain public facilities.), **As Introduced**

<p><b>No significant fiscal implication to the State is anticipated.</b></p>
--

The bill would amend the Transportation Code and the Local Government Code to authorize the Department of Public Safety (DPS), the Department of Motor Vehicles (DMV), or the commissioners court of a county to enter into an agreement with a public or private entity for a digital message display system to report department or county information, news, and approved digital advertisements in publicly accessible areas of a DPS drivers license office, DMV facility, or county tax assessor-collector office.

Based on the information and analysis provided by DPS and DMV, it is assumed implementation of the provisions of the bill would not result in a significant fiscal impact to the state.

**Local Government Impact**

There could be costs to a county that chooses to establish a digital message display system. However, it is assumed that a county would establish a system only if sufficient funds were available or it would not result in a negative fiscal impact; therefore, no significant fiscal impact is anticipated.
