**FROM:** Ursula Parks, Director, Legislative Budget Board

**IN RE:** **HB2960** by Schofield (Relating to certain information reported to county voter registrars and to the Department of Public Safety and to the cancellation of a driver's license based on that information.), **As Introduced**

**No significant fiscal implication to the State is anticipated.**

The bill would amend the Transportation and Health and Safety Codes to require the cancellation of a deceased individual's driver's license, personal identification certificate or election identification certificate not later than the fifth business day after the date the Department of Public Safety receives a copy of the individual's death certificate. It is assumed any costs associated with implementing the bill could be absorbed within existing resources.

**Local Government Impact**

The bill would require local registrars to file with the commissioners court or the county auditor, as well as the Department of Public Safety, a copy of each death certificate filed with the local registrar during the preceding month within five business days. There may be administrative costs to local governmental entities; however, the fiscal implication is not anticipated to be significant.
