

**LEGISLATIVE BUDGET BOARD**  
**Austin, Texas**

**FISCAL NOTE, 84TH LEGISLATIVE REGULAR SESSION**

**February 26, 2015**

**TO:** Honorable Charles Schwertner, Chair, Senate Committee on Health & Human Services

**FROM:** Ursula Parks, Director, Legislative Budget Board

**IN RE:** SB133 by Schwertner ( relating to mental health first aid training for school district employees and school resource officers.), **Committee Report 1st House, Substituted**

<p><b>No significant fiscal implication to the State is anticipated.</b></p>
--

The bill would expand the categories of school district employees eligible to receive mental health first aid training and related grants. The training and grants would be available to employees that regularly interacted with students in the course of their duties.

The increase in the target population would not result in a significant increase of cost for the Department of State Health Services. Statute indicates grants shall be made only to the extent funds are appropriated.

The bill has no direct fiscal implications for the Foundation School Program or the operations of the Texas Education Agency.

**Local Government Impact**

School district employees and resource officers would be eligible to access mental health first aid training. It is assumed that the cost of training would be covered by available grant funding. Some school districts could incur costs for substitute teachers to cover classrooms while teachers were obtaining training.
