IN RE: SB913 by Zaffirini (Relating to energy and water management planning and reporting requirements for state agencies and institutions of higher education.), **Committee Report 2nd House, Substituted**

No significant fiscal implication to the State is anticipated.

The bill would amend the Government Code to modify energy and water management planning and reporting requirements for state agencies and institutions of higher education, including the addition of listing transportation fuel in the agency's or institution's comprehensive energy and water management plan. The bill would remove several provisions relating to utility planning, reporting, and assistance. It is assumed that any cost associated with implementation of the provisions of the bill would not be significant and could be absorbed within existing resources.
