--

The bill would amend the Local Government Code to require certain municipalities to comply with procedure requirements for adopting or amending a national model code. Under the provisions of the bill, the procedure requirements would include the preparation of a cost-benefit analysis and holding two public hearing on the proposed adoption of or amendment to a national model code. The bill would require the procedures to be completed before any building code amendment could be adopted.

Local Government Impact

There would be administrative costs to a local entity to comply with the provisions of the bill, including holding the public meetings, preparing the cost-benefit analysis and maintaining information on an Internet website. The costs would depend on the resources of a local entity and the proposed changes.
