

Amend CSHB 4180 (senate committee report) by adding the following SECTION to the bill, numbered appropriately, and renumbering accordingly the SECTIONS of the bill:

SECTION _____. (a) Effective September 1, 2017, Sections 54.016(a), (b), and (f), Water Code, are amended to read as follows:

(a) No land within the corporate limits of a city or within the extraterritorial jurisdiction of a city, shall be included in a district unless the city grants its written consent, by resolution or ordinance, to the inclusion of the land within the district in accordance with Section 42.042, Local Government Code, and this section. The request to a city for its written consent to the creation of a district, shall be signed by a majority in value of the holders of title of the land within the proposed district as indicated by the county tax rolls or, if there are more than 50 persons holding title to the land in the proposed district as indicated by the county tax rolls, the request to the city will be sufficient if it is signed by 50 holders of title to the land in the district. A petition for the written consent of a city to the inclusion of land within a district shall describe the boundaries of the land to be included in the district by metes and bounds or by lot and block number, if there is a recorded map or plat and survey of the area, and state the general nature of the work proposed to be done, the necessity for the work, and the cost of the project as then estimated by those filing the petition. If, at the time a petition is filed with a city for creation of a district, the district proposes to connect to a city's water or sewer system or proposes to contract with a regional water and wastewater provider which has been designated as such by the commission as of the date such petition is filed, to which the city has made a capital contribution for the water and wastewater facilities serving the area, the proposed district shall be designated as a "city service district." If such proposed district does not meet the criteria for a city service district at the time the petition seeking creation is filed, such district shall be designated as a "noncity service district." The city's consent shall not place any restrictions or conditions on the creation of a noncity service district as defined by this chapter [~~Chapter 54 of the Texas Water Code~~] other than

those expressly provided in Subsection (e) of this section and shall specifically not limit the amounts of the district's bonds. A city may not require annexation as a consent to creation of any district. A city shall not refuse to approve a district bond issue for any reason except that the district is not in compliance with valid consent requirements applicable to the district. If a city grants its written consent without the concurrence of the applicant to the creation of a noncity service district containing conditions or restrictions that the petitioning land owner or owners reasonably believe exceed the city's powers, such land owner or owners may petition the commission to create the district and to modify the conditions and restrictions of the city's consent. The commission may declare any provision of the consent to be null and void. The commission may approve the creation of a district that includes any portion of the land covered by the city's consent to creation of the district. The legislature may create and may validate the creation of a district that includes any portion of the land covered by the city's consent to the creation of the district.

(b) If the governing body of a city fails or refuses to grant permission for the inclusion of land within its extraterritorial jurisdiction in a district, including a district created by a special act of the legislature, within 90 days after receipt of a written request, a majority of the electors in the area proposed to be included in the district or the owner or owners of 50 percent or more of the land to be included may petition the governing body of the city and request the city to make available to the land the water or sanitary sewer service contemplated to be provided by the district.

(f) A city may provide in its written consent for the inclusion of land in a district that is initially located wholly or partly outside the corporate limits of the city that a contract ("allocation agreement") between the district and the city be entered into prior to the first issue of bonds, notes, warrants, or other obligations of the district. The allocation agreement shall contain the following provisions:

(1) a method by which the district shall continue to exist following the annexation of all territory within the district

by the city, if the district is [~~initially~~] located outside the corporate limits of the city at the time the creation of the district is approved by the district's voters;

(2) an allocation of the taxes or revenues of the district or the city which will assure that, following the date of the inclusion of all the district's territory within the corporate limits of the city, the total annual ad valorem taxes collected by the city and the district from taxable property within the district does not exceed an amount greater than the city's ad valorem tax upon such property;

(3) an allocation of governmental services to be provided by the city or the district following the date of the inclusion of all of the district's territory within the corporate limits of the city; and

(4) such other terms and conditions as may be deemed appropriate by the city.

(b) The change in law made to Section 54.016(f), Water Code, as amended by this section, applies only to an agreement entered into on or after the effective date of this section. An agreement entered into before the effective date of this section is governed by the law in effect on the date the agreement was entered into, and the former law is continued in effect for that purpose.
