Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The wrongful birth cause of action was first recognized in the Texas Supreme Court in 1975 in *Jacobs v Theimer*. The parents of the disabled child argued they would have terminated the pregnancy if they had known about the disabilities beforehand. The Texas Supreme Court awarded the parents the recovery of expenses reasonably necessary for the care and treatment of their child's physical impairment for its entire life. This ruling was based on the existence of a life.

C.S.S.B. 25 prohibits the wrongful birth cause of action. This legislation is consistent with Texas values that all lives are valuable and that child birth is prioritized. C.S.S.B. 25 will end the negative precedent that disabled persons should not have been born and also hold doctors accountable for their action, not holding them liable for disabilities they did nothing to cause.

C.S.S.B. 25 amends current law relating to eliminating the wrongful birth cause of action.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
