AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Gulf Coast Waste Disposal Authority (authority) is a governmental entity created by the Texas Legislature in 1969 with the broad charge to protect the waters of the State of Texas, focused primarily at that time on Galveston Bay watershed. The primary focus since inception has been regional industrial wastewater treatment serving the petrochemical industry. However, the authority's powers are much more broad and also include municipal wastewater treatment, water systems and reuse, solid waste management, and bond financing services.

The authority is seeking to change its name to Gulf Coast Authority in order to better represent all of the services they provide and reduce confusion among customers, potential customers, and the public.

S.B. 1489 changes the name of the Gulf Coast Waste Disposal Authority to the Gulf Coast Authority. (Original Author's / Sponsor's Statement of Intent)

S.B. 1489 amends current law relating to the Gulf Coast Waste Disposal Authority.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
