AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The University Interscholastic League (UIL) was created in 1910 by The University of Texas to provide interschool competitions in extracurricular academics, athletics, and music. Currently, there is no clear process for selecting host locations for championship locations for UIL competitions.

S.B. 1981 requires that UIL use a request for proposal process that must specify the factors that UIL will consider for selecting locations for statewide competitions. Interested host locations will send in proposals for the event that will include relevant information regarding the capability to host the competition, such as available facilities and local accommodations.

S.B. 1981 creates a transparent and fair bidding process for site selection for UIL statewide championship locations. S.B. 1981 aims to promote economic development by providing an even playing field to allow communities across Texas to have the opportunity to host UIL competitions.

As proposed, S.B. 1981 amends current law relating to selection of statewide competition locations by the University Interscholastic League.
