AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The 79th Texas Legislature created the Texas Health Insurance Pool (Pool) to provide health insurance to eligible Texans unable to obtain health insurance due to health conditions.

The 83rd Texas Legislature passed S.B. 1367 to dissolve the Pool due to changes in federal law that generally prohibited carriers from rejecting applicants due to health conditions.

As part of this year's health reform efforts, bills have been filed at the federal level that would provide federal funding for state pools to cover individuals with high cost medical conditions, or provide reinsurance, thus allowing carriers to reduce health insurance premiums generally. Because the final form of the federal funding is unknown at this time, but might be available prior to the next Texas legislative session, provisions must be made in state law this session to permit the Texas Department of Insurance to access the federal funds on an interim basis.

As proposed, S.B. 2087 amends current law relating to the creation of a temporary health insurance risk pool.
