**Committee Report 1st House, Substituted**

**No significant fiscal implication to the State is anticipated.**

The bill would amend the Code of Criminal Procedure to authorize a judge to require a defendant to wear or use an ethyl alcohol monitoring device in addition to an ignition interlocking device as a condition of community supervision for certain intoxication offenses. The bill would allow a judge to order a defendant to pay the costs for the device in certain circumstances. Based on the analysis of the Office of Court Administration, duties and responsibilities associated with implementing the provisions of the bill could be accomplished by utilizing existing resources.

**Local Government Impact**

No significant fiscal implication to units of local government is anticipated.
