

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 85TH LEGISLATIVE REGULAR SESSION

April 1, 2017

TO: Honorable Dennis Bonnen, Chair, House Committee on Ways & Means

FROM: Ursula Parks, Director, Legislative Budget Board

IN RE: HB445 by Frank (Relating to the eligibility of certain property for certain ad valorem tax incentives relating to wind-powered energy devices.), **As Introduced**

Passage of the bill would amend Chapters 312 and 313 of the Tax Code to prohibit wind farm owners from receiving a property tax abatement through Chapter 312, or a property tax limitation through Chapter 313, if their wind turbines are located 30 nautical miles or less from a military aviation facility located in Texas. To the extent that wind farm owners, subject to the bill's provisions, would no longer be eligible to receive a property tax abatement or limitation, related costs to the Foundation School Fund could be decreased through the operation of the school finance formulas.

The bill would amend Chapters 312 and 313 of the Tax Code to prohibit wind farm owners from receiving a property tax abatement through Chapter 312, or a property tax limitation through Chapter 313, if their wind turbines are located 30 nautical miles or less from a military aviation facility located in Texas.

The bill would amend Chapter 312 by adding Section 312.0021 to define "military aviation facility," and "wind-powered energy device" by reference to Chapter 11.27 of this code. The new section would prohibit an owner, or a lessee, from receiving-on or after September 1, 2017-a property tax abatement on any real property that is wholly or partially within a reinvestment zone if a wind turbine on that parcel is constructed or installed after September 1, 2017 at a location within 30 nautical miles of a military aviation facility located in Texas.

The bill would amend Chapter 313 by adding new Subsection 313.024(b-1) to similarly disallow such property owners from receiving a school district Maintenance and Operations (M&O) property tax limitation under this chapter.

The bill would amend Subsection 313.024(e) to define "military aviation facility" and "wind-powered energy device" as the bill defines those terms in Chapter 312.

The bill clarifies that its provisions apply only to ad valorem taxes imposed for a tax year beginning on or after January 1, 2018.

The Comptroller's Office indicates that the number of owners and amount of real property subject to the provisions of the bill cannot be determined.

The bill would take effect January 1, 2018.

Local Government Impact

Passage of the bill would amend Chapters 312 and 313 of the Tax Code to prohibit wind farm owners from receiving a property tax abatement through Chapter 312, or a property tax limitation through Chapter 313, if their wind turbines are located 30 nautical miles or less from a military aviation facility located in Texas. To the extent that wind farm owners, subject to the bill's provisions, would no longer be eligible to receive a property tax abatement or limitation, related ad valorem tax revenue for units of local government could be increased.
