Fiscal Analysis

The bill would remove the limit of the number of students served in a charter under the Adult High School Diploma and Industry Certification Charter School Pilot Program, as provided for in Section 29.259(d) of the Education Code.

The bill would modify certain requirements of the charter granted under the Adult High School Diploma and Industry Certification Charter School Pilot Program, require the Commissioner of Education to develop and adopt performance frameworks for the charter under the program, and evaluate the performance of an adult high school operated under the program.

The bill would eliminate a report prepared by the Texas Education Agency related to the program.

The bill would take effect September 1, 2017.

Methodology

The Texas Education Agency (TEA) assumes that attendance in this program would increase by 20 percent per year under the provisions of the bill. TEA indicates that the program currently generates \$853,420 annually, and a 20 percent increase per year would have additional costs of \$165,128 in fiscal year 2018, \$363,280 in fiscal year 2019, increasing to \$1,228,806 in fiscal year 2022.

Local Government Impact

No fiscal implication to units of local government is anticipated.
