2019	\$0	\$0
2020	(\$16,610,000)	\$16,610,000
2021	(\$17,390,000)	\$17,390,000
2022	(\$18,190,000)	\$18,190,000

Fiscal Analysis

The bill would amend Chapter 156 of the Tax Code, regarding the state hotel occupancy tax, to allocate a share of state hotel occupancy taxes collected in certain coastal counties to a dedicated account.

The bill would add new Section 156.252 to define a "coastal county" as any county adjacent to the Gulf of Mexico or Corpus Christi Bay. The Comptroller, beginning with the state fiscal year beginning September 1, 2019 and not later than September 30 of each state fiscal year, would allocate annually to those coastal counties an amount equal to 2 percent of the taxable receipts subject to the state's hotel occupancy tax in those counties to the coastal erosion response account. Any revenue derived from hotel occupancy taxes under Chapter 156 that is placed in a suspense account under Section 151.429(h) (sales tax and use tax rebate for qualified hotel projects) or Section 2303.5055(f) of the Government Code (tax rebates from qualified hotel projects) would be excluded from this computation.

The bill would amend Section 33.604 of the Natural Resources Code, regarding the coastal erosion response account, to include as a revenue source for this account the allocation from the state hotel occupancy tax to coastal counties under Section 156.252 of the Tax Code. This revenue would be subject only to appropriation to the General Land Office for certain coastal management program purposes that benefit a coastal county.

The bill would take effect September 1, 2017.

Methodology

The bill's definition of coastal counties would include Cameron, Willacy, Kenedy, Kleberg, Nueces, Aransas, San Patricio, Calhoun, Matagorda, Brazoria, Galveston, Chambers and Jefferson counties. The transfer of state hotel tax revenue, assumed to commence in fiscal 2020, would be a loss to unrestricted general revenue and equivalent gain to a dedicated account for coastal erosion response. The coastal erosion response account currently is inactive. The estimated amounts were determined by calculating two percent of the state hotel tax revenue collected from the coastal counties in fiscal year 2016, extrapolated through 2022 at the annual growth rates assumed for hotel occupancy tax revenue in the 2018-19 Biennial Revenue Estimate.

This legislation would do one or more of the following: create or recreate a dedicated account in the General Revenue Fund, create or recreate a special or trust fund either in, with, or outside of the Treasury, or create a dedicated revenue source. The fund, account, or revenue dedication included in this bill would be subject to funds consolidation review by the current Legislature.

Local Government Impact

No fiscal implication to units of local government is anticipated.
