

**LEGISLATIVE BUDGET BOARD**  
**Austin, Texas**

**FISCAL NOTE, 85TH LEGISLATIVE REGULAR SESSION**

**March 23, 2017**

**TO:** Honorable Craig Estes, Chair, Senate Committee on Natural Resources & Economic Development

**FROM:** Ursula Parks, Director, Legislative Budget Board

**IN RE:** **SB570** by Rodríguez (relating to the regulation of the retention, storage, transportation, disposal, processing, and reuse of used or scrap tires; providing a civil penalty; creating a criminal offense.), **Committee Report 1st House, Substituted**

**No significant fiscal implication to the State is anticipated.**

The bill would require used or scrap tire generators who store used or scrap tires outdoors to store the tires in a secure manor, as well as requiring the Texas Commission on Environmental Quality (TCEQ) to establish requirements for financial assurance for certain generators, transporters and processors of used or scrap tires removed from vehicles during the purchase of tires. The bill would regulate the retention, storage, transportation and disposal of used or scrap tires and specify penalties for violations. The bill would require TCEQ to adopt rules necessary to implement the changes required by the bill no later than March 1, 2018, and would not require a regulated person to register, per the requirements of the bill, until September 1, 2018.

TCEQ estimates there would be a minimal cost associated with implementing the provisions of the bill that would include dedicating a position for this purpose.

**Local Government Impact**

According to TCEQ, the financial assurance requirements of the bill may potentially impact the number of registered transporters and could result in increased price for tire transportation. Local governments could also generate revenue as a result of the civil penalties specified in the bill.

According to the Texas Association of Counties, Cameron County reported the fiscal impact would not be significant.
