

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 85TH LEGISLATIVE REGULAR SESSION

May 9, 2017

TO: Honorable Geanie W. Morrison, Chair, House Committee on Transportation

FROM: Ursula Parks, Director, Legislative Budget Board

IN RE: SB2205 by Hancock (Relating to automated motor vehicles.), As Engrossed

No significant fiscal implication to the State is anticipated.

The bill would amend the Transportation Code to establish a legal framework for the operation of automated motor vehicles. Specifically, the bill would:

- 1) Require the Department of Public Safety (DPS) to govern automated motor vehicles;
- 2) Proscribe local entities from imposing a franchise or other regulation on the operation of an automated motor vehicle;
- 3) Specify that the owner of an automated motor vehicle is the vehicle's operator for purposes of enforcement of applicable traffic laws;
- 4) Remove the necessity for a licensed human operator to be present in the automated motor vehicle, and instead would consider the automated driving system to be the entity licensed to operate the vehicle;
- 5) Clarify an automated motor vehicle may not operate unless it is equipped with a recording device installed by the manufacturer and is equipped with an automated driving system that is in compliance with certain federal laws; and
- 6) Define the conditions under which an automated motor vehicle may operate in a highway, including the responsibilities of individuals involved in an accident involving an automated motor vehicle.

It is assumed any cost associated with implementing the provisions of the bill could be absorbed within existing resources.

The bill would take effect September 1, 2017.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
