Enclosure

**HB 4643, as Filed by Representative Cecil Bell  
Texas Commission on Environmental Quality's Comments**

The Legislative Budget Board, in cooperation with the Texas Water Development Board (TWDB) and the Texas Commission on Environmental Quality (TCEQ), has determined that:

This bill creates Wood Trace Water Control and Improvement District of Montgomery County, Texas (District) with the powers and duties of a standard water control and improvement district under Water Code Chapters 49 and 51.

**Comments on Powers/Duties Different from Similar Types of Districts:**

The District must receive consent to the creation of the District from each municipality in whose corporate limits or extraterritorial jurisdiction the District is located prior to holding a confirmation election; the bill requires the TCEQ to appoint the five initial temporary directors upon receipt of a petition from the owners of a majority of the assessed value of the real property in the District; the bill grants the District authority for road projects; the District may not exercise the power of eminent domain outside the District to acquire a site or easement for a recreational facility as defined by Section 49.462, Water Code or a road project; the bill specifies that at the time of issuance, the total principal amount of bonds or other obligations issued or incurred to finance road projects and payable from ad valorem taxes may not exceed one-fourth of the assessed value of real property in the District; the District may develop recreational facilities and issue bonds for recreational facilities regardless of whether the District's territory overlaps with the territory of a political subdivision that is authorized to develop recreational facilities and issue bonds for recreational facilities; the authority of the District does not limit the authority of another political subdivision whose territory the territory of the District may overlap to develop recreational facilities and issue bonds for recreational facilities; and if the bill does not receive a two-thirds vote of all members elected to each house, the District may not exercise the power of eminent domain.

**Overlapping Services:** TCEQ does not have mapping information for water and/or wastewater providers because this function was transferred from the TCEQ to the Public Utility Commission on September 1, 2014. As a

result, TCEQ is unaware of possible overlapping service providers.

**TCEQ's Supervision:** As with general law districts, the TCEQ will have general supervisory authority, including bond review authority and review of financial reports.
