Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Concerns have been raised about the registration requirements of certain trailers not subject to state inspection, many of which are farm and ranch trailers used by individuals for agricultural purposes. It has been suggested that the frequency with which these trailers must be registered creates a burden on trailer owners, state agencies, and local governmental agencies. H.B. 1262 seeks to address this issue by providing for an extended registration period for these vehicles.

H.B. 1262 requires the Texas Department of Motor Vehicles to develop and implement a system of registration to allow an owner of a trailer, semitrailer, or pole trailer not subject to state inspection and having an actual gross weight or registered gross weight of 7,500 pounds or less to register the vehicle for an extended registration period of not more than five years. The bill authorizes the owner to select the number of years for extended registration within that range and register the vehicle for that period. The bill makes payment for all applicable fees, including registration fees and the fee required for certain inspection-exempt vehicles, for the entire registration period selected due at the time of registration. The bill requires the \$7.50 fee collected at the time of registration of a trailer, semitrailer, or pole trailer not subject to state inspection that has an actual gross weight or registered gross weight of more than 4,500 pounds to be remitted to the comptroller of public accounts of the State of Texas for deposit in the Texas mobility fund, the general revenue fund, and the clean air account in amounts proportionate to the allocation prescribed by statutory provisions relating to that fee. (Original Author's/Sponsor's Statement of Intent)

C.S.H.B. 1262 amends current law relating to the extended registration of certain vehicles not subject to inspection.
