### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

A Certificate of Convenience and Necessity (CCN), is a monopoly granted to a utility operator for exclusive service rights in a designated service area. CCNs guarantee an area of service for a utility provider. As urban areas have expanded into previously rural areas, conflicts may arise between landowners and CCN holders in those urbanizing areas. Current law authorizes landowners to be released from a CCN and for a process to determine whether compensation is owed to the CCN holder. S.B. 2272 makes changes to this compensation process. (Original Author's/Sponsor's Statement of Intent)

C.S.S.B. 2272 amends current law relating to the procedure for amending or revoking certificates of public convenience and necessity issued to certain water utilities.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
