(B) a pattern of use that is explicitly authorized in or required by the original right;

1 (2) adds a place of use located in the same basin as

13 diversion;

14 (E) there are no streamflow gauges located on the
15 source of supply between the original point of diversion and the new
16 point of diversion that are referenced in the original water right
17 or in another water right authorizing a diversion from the same
18 source of supply; and

19 (F) there are no tributary watercourses that
20 enter the watercourse that is the source of supply located between
21 the original point of diversion and the new point of diversion.

23 water right that is filed with the Texas Commission on
