25 (iii) state appropriations;

26 (C) the years of operation; and

27 (D) whether the initiative is an example of a

13 for state agencies to:

14 (1) improve statewide and regional data collection on  
15 suicide-related events;

16 (2) use data to guide and inform decisions and policy  
17 development relating to suicide prevention; and

18 (3) decrease suicide in this state while targeting the  
19 highest categories of risk.

20 (b) The council shall establish a stakeholder workgroup to  
21 assist member agencies in preparing the report that includes:

22 (1) a representative of a nonprofit group that  
23 supports community-based suicide prevention activities in this  
24 state; and
