## **Fiscal Analysis**

The bill would amend Chapter 32 of the Human Resources Code to require the Health and Human Services Commission (HHSC) to update the education adjustment factor used to calculate the medical education add-on at least annually with the most recent data available. HHSC would be authorized to seek a federal waiver or authorization if necessary. The bill would take effect immediately upon receiving a two-thirds majority vote in each house. Otherwise, the bill would take effect September 1, 2019.

## **Methodology**

Currently, the medical education add-on is only calculated at the time of rebasing. According to HHSC, calculating the rate annually would have varying impact on stakeholders and would result in a total savings related to client services of \$907,363 in All Funds each fiscal year. HHSC determined that costs associated with obtaining federal approval and adopting new rules could be absorbed within existing resources.

The University of Texas System determined that the bill would not have a fiscal impact on University of Texas health institutions.

## **Local Government Impact**

No fiscal implication to units of local government is anticipated.
