## **Fiscal Analysis**

The bill would amend the Health and Safety Code to exempt certain satellite offices of chemical dependency treatment facilities from licensing requirements.

The bill would take effect September 1, 2019.

## **Methodology**

The Health and Human Services Commission indicates that 676 satellite offices would no longer be required to pay a license fee of \$125 every two years under the provisions of the bill. According to the Comptroller of Public Accounts, this would lead to a loss of \$42,000 in General Revenue for each fiscal year.

## **Local Government Impact**

No fiscal implication to units of local government is anticipated.
