

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 86TH LEGISLATIVE REGULAR SESSION

March 29, 2019

TO: Honorable Bob Hall, Chair, Senate Committee on Agriculture

FROM: John McGeady, Assistant Director Sarah Keyton, Assistant Director
Legislative Budget Board

IN RE: SB1672 by Perry (Relating to the detection and mitigation of plant pests and diseases.),
As Introduced

No significant fiscal implication to the State is anticipated.

The bill would amend the Agriculture Code to require the Texas Department of Agriculture (TDA) to enter into a cooperative agreement with a university for the purpose of the detection and mitigation of plant pests and diseases. A university involved in the agreement would conduct early plant pest detection and surveillance, and would provide reports on its activities to TDA. The bill would require TDA to establish a threat identification and mitigation program to address domestic production of crops. TDA would be required to submit an annual report to the Legislature describing its activities and any funds expended. Based on the analysis of TDA, duties and responsibilities associated with implementing the provisions of the bill could be accomplished using existing resources.

Local Government Impact

No significant fiscal implication to units of local government is anticipated.
