**No significant fiscal implication to the State is anticipated.**

The agency is required to implement a provision of this Act only if the legislature appropriates money specifically for that purpose. If the legislature does not appropriate money specifically for that purpose, the agency may, but is not required to, implement a provision of this Act using other appropriations available for that purpose.

It is assumed that the provisions of the bill relating to the essential knowledge and skills of the technology applications curriculum and the establishment of a computer science strategic advisory committee to increase computer science instruction and participation in public schools could be absorbed using existing resources.

**Local Government Impact**

No significant fiscal implication to units of local government is anticipated.
