Mr Laramie Stroud

We know that the opposite is true: guns are used far more times for good than for evil, and laws designed to decrease access to guns do not keep us safe. The best solution to keep Texas safe is to encourage and enable honest citizens like you and me to be able to carry our firearms for defense.

Instead of debating what gun control flavors to promote, Texas should pass Constitutional Carry and end “gun-free” zones. And finally please don't take my rights of due process away by passing Red Flag Laws.

Sincerely,

Trevor Avery
