

James Barger

Legislative consideration of red flag gun confiscation laws, bans on commonly-owned semi-automatic firearms, limits on standard capacity magazines, and so-called "universal" background checks are a definitive action against the spirit of the second amendment to the United States Constitution.

It is the virtually universal belief of law-abiding citizens of Texas that, in fact, the loosening restrictions on where and how law-abiding Texans can protect themselves is wholly justified and is the proper action demanded of our law-makers in Austin.

*Criminals are not deterred by gun-free zones, nor will they bother to seek government permission to carry and use a firearm in an unlawful act.*

Please do not be influenced by failed political individuals who seek abrogate our constitutional rights of law-abiding citizens to defend themselves, their homes, and their families.
