

From Larry Vaughn re: Duty # 4.

I don't know where you are going with this, but I suspect it's got to do with violating the U.S. Constitution by restricting my right to bear arms. So, what part of, "...Shall not be infringed" isn't clear to you?

Our nation is heading toward another civil war thanks to the insane crop of Democratic leaders who are currently in power. Attempts to make gun control actions seem like the will of the people is being carried out (when in fact the opposite is true) do not help.
