My comments:

I will not tolerate the subjugation of my Second Amendment RIGHTS. Not "privileges" - but constitutionally guaranteed RIGHTS.

So called "Red Flag" laws are confiscation without due process. If I had any firearms that survived that tragic boating accident in Lake Conroe, I would never have surrendered ANY of them under ANY circumstances. Even if authorities were threatening my very life.

Changing Texas Private firearms transfer laws and/or implementing "Universal" background checks will not prevent a single firearm death or injury. It's a lie to prep for universal gun registration. A gov't can't track it otherwise. It won't solve a sigle problem.

We have firearms laws on the books. Enforce those laws and stop allowing criminals and thugs back out on the street.
