Mr. Darby and Committee,

The realization of the quest to reduce mass violence is found in the public 0 tolerance for this crime and or like crime(s) and the severe penalty and punishment for the same.

Gun control is folly except for in socialistic societies, and dictatorships. The evidence abounds.

If the goal of the Committee is achieved (in realty) then our blood Bought Freedoms are one closer step to being erased.

Realistically what is being proposed is anti- American Freedom, feely touchy liberal partisan politics.

Please end the Committee's Anti American, Anti Texan charade.

No thanks for wasting Texan's time and money,

Doctor B.
