

## "Duty # 4 Submission"

Joseph Mumme

Texas House Committee on Mass Violence Prevention & Community Safety

If your committee knew anything about criminals they would know that criminals do NOT follow laws.

So in effect more laws won't prevent criminals from possessing weapons.

The only thing that your proposed laws will do is disarm law abiding Texans. Making all of us less safe. Something like Chicago – "The Murder Capitol of the U.S.A. "

What Texas needs to make us all safer is a fully unrestricted Second Amendment.

Constitutional Carry everywhere in Texas with no restrictions.

Gun Free Zones should be illegal because they get law abiding Texans killed.

If a company like the soon to be a memory USPO wants to do business in Texas they must not have any Gun Free Zones.
