WATER DEVELOPMENT POLICY IMPACT STATEMENT

86TH LEGISLATIVE REGULAR SESSION

April 7, 2019

TO: Honorable Tom Craddick, Chair, House Committee on Land & Resource Management

FROM: John McGeady, Assistant Director Sarah Keyton, Assistant Director
Legislative Budget Board

IN RE: HB4674 by Bailes (Relating to the creation of the Chambers County Municipal Utility District No. 2; granting a limited power of eminent domain; providing authority to issue bonds; providing authority to impose assessments, fees, and taxes.), **As Introduced**

The Legislative Budget Board, in cooperation with the Texas Water Development Board (TWDB) and the Texas Commission on Environmental Quality (TCEQ), has determined that:

This bill creates Chambers County Municipal Utility District No. 2 (District) with the powers and duties of a standard municipal utility district under Water Code Chapters 49 and 54.

Population - The very specific description of the proposed boundaries does not allow staff to develop precise population estimates.

Population growth in the specific area since the 2010 census is unknown. The 2010 population estimate for areas of Chambers County served by small water systems or private wells (County-Other) was 10,821. The Chambers County-Other population projections adopted for the 2022 State Water Plan projects the population to grow to 13,729 in 2020 and 16,483 in 2030.

Location - The proposed district's initial boundaries are described with a combination of Original Texas Land Surveys, Official Public Records of Chambers County and metes and bounds. Due to the complexity of these boundaries for the various subareas of the district, staff is only able to determine the general location of the proposed district.

The proposed district's area is approximately 0.57 square miles in west Chambers County, located northeast of the City of Baytown, and west of Dutton Lake. The proposed district appears to be near the intersection of State Highway 99 (Grand Parkway) and Farm to Market Road 565.

Comments on Powers/Duties Different from Similar Types of Districts:

The District must receive consent to the creation of the District from each municipality in whose corporate limits or extraterritorial jurisdiction the District is located prior to holding a confirmation election; the bill requires the TCEQ to appoint the five initial temporary directors upon receipt of a petition from the owners of a majority of the assessed value of the real property in the district; the bill grants the District authority for road projects; the bill specifies that at the time of issuance, the total principal amount of bonds or other obligations issued or incurred to finance road projects and payable from ad valorem taxes may not exceed one-fourth of the

assessed value of real property in the District; and if the bill does not receive a two-thirds vote of all members elected to each house, the District may not exercise the power of eminent domain.

Overlapping Services: TCEQ does not have mapping information for water and/or wastewater providers because this function was transferred from the TCEQ to the Public Utility Commission on September 1, 2014. As a result, TCEQ is unaware of possible overlapping service providers.

TCEQ's Supervision: As with general law districts, the TCEQ will have general supervisory authority, including bond review authority and review of financial reports.

Water Use - Within Chambers County, 94% of the total water use was supplied by surface water and irrigation was the largest volume water use category comprising 66% of the county total water use in 2016. 5% of the county total water use was for municipal use in 2016. The water source the proposed district might pursue is unknown.
