**Fiscal Analysis**

The bill would authorize the issuance of \$3.2 billion in tuition revenue bonds for institutions of higher education to finance construction and improvement of infrastructure and related facilities. The bill includes authorizations of \$717.4 million for the Texas A&M System, \$814.2 million for the University of Texas System, \$339.5 million for the University of Houston System, \$422.6 million for the Texas State University System, \$264.7 million for the University of North Texas System, \$100.0 million for Texas Woman's University, \$44.9 million for Stephen F. Austin University, \$271.8 million for the Texas Tech University System, \$95.2 million for Texas Southern University and \$153.4 million for the Texas State Technical System.

The bonds would not be general obligations of the State. However, the issued bonds would have fiscal implications for the State. Historically, the Legislature has appropriated General Revenue to reimburse institutions for the tuition used to pay the debt service. Other funds could also be appropriated for this purpose.

The bill amends Education Code by stating that certain funds allocated from the appropriation of general revenue to an institution of higher education to supplement revenue funds of the institution may be designated as "Capital Construction Assistance Projects."

### **Methodology**

The estimates provided in this fiscal note are based on debt service information that has been previously provided by system offices, institutions of higher education and the Texas Public Finance Authority on other bills dealing with tuition revenue bonds.

### **Local Government Impact**

No fiscal implication to units of local government is anticipated.
