**Fiscal Analysis**

The bill would authorize the issuance of \$2.0 billion in tuition revenue bonds for institutions of higher education to finance construction and improvement of infrastructure and related facilities. The bill includes authorizations of \$301.8 million for the Texas A&M System, \$310.0 million for the University of Texas System, \$209.3 million for the University of Houston System, \$235.0 million for the Texas State University System, \$247.0 million for the University of North Texas System, \$49.0 million for Texas Woman's University, \$53.0 million for Stephen F. Austin University, \$206.0 million for the Texas Tech University System, \$154.2 million for Texas Southern University and \$208.5 million for the Texas State Technical System.

The bonds would not be general obligations of the State. However, the issued bonds would have fiscal implications for the State. Historically, the Legislature has appropriated General Revenue to reimburse institutions for the tuition used to pay the debt service. Other funds could also be appropriated for this purpose.

## **Methodology**

The information included below was provided by institutions of higher education based on debt service schedules for projects authorized in the bill. In some cases, institutions reported that debt service payments would begin in fiscal year 2022, while other institutions reported that the debt service payments would begin in fiscal year 2023.

Bonds for components of the Texas A&M University System would be issued at a 6.0 percent interest rate with a 20-year level debt service amortization.
