18 (1) minimum siting standards for fluid recycling pits;

19 (2) uniform technical, construction, and placement

26 (e) The commission shall approve or deny an application for

2 time to approve or deny the application in order to allow for  
3 notice, public comment, and a public hearing on the application. If  
4 the commission does not approve or deny the application before that  
5 date, the permit application is considered approved and the

8 (f) An application requesting a variance from the standards
