### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

#### **Statement of Purpose**

To provide transparency for residents of certain special purpose districts similar to that of other taxing entities in the State of Texas.

#### **Background**

Hundreds of thousands of Texans live in political subdivisions including water control and improvement districts, freshwater supply districts, municipal utility districts, and water improvement districts. For many residing in one of these districts, finding out who serves on a district's board, when these political subdivisions' boards meet, when they set a tax rate, or finding out the district's budget is nearly impossible. During COVID-19, many residents of municipal utility districts and other special purpose districts were unable to participate in the governance of their district.

In 2019, S.B. 239 by Senator Nelson provided residents with district meeting information on their water bills, recordings of meetings on a district Internet site if the district maintains one, and a process to petition the district to hold board meetings inside the district.

This legislation builds on the reforms passed by the 86th Legislature to add more transparency to special districts throughout the state. H.B. 1154 ensures the local availability and transparency of municipal utility districts and other special purpose districts and other certain water district board meetings and other information. The bill will ensure residents of special purpose districts can remain informed on the administration of the district in which they reside.

#### **Key Provisions**

- Requires every district created under Chapters 51 (Water Control Improvement Districts), 53 (Fresh Water Supply Districts), 54 (Municipal Utility Districts), or 55 (Water Improvement Districts), Water Code, that has a population of 500 or more to develop and maintain a district Internet site.
- Requires districts to post on their Internet website:
  - name of the district;
  - name and term of office for board members;
  - contact information for the main office of the district;
  - official district contact information for each member of the board;
  - the name of the general manager or executive director or person that performs their duties;
  - the contact information for a person representing the utility operator;

- the contact information for a person representing the tax assessor-collector;
  - if the district imposes an ad valorem tax, the rate of the ad valorem tax;
  - if the district imposes a sales and use tax, the rate of the sales and use tax;
  - notice of the tax hearing required under the Water Code;
  - the location and schedule of meetings of the board;
  - notice of a meeting of the board;
  - minutes of each meeting of the board; and
  - the most recent financial audit of the district.
- Allows a district to allow the general public to watch or listen to a board meeting by video or telephone conference call.
  - Adds Section 49.062(b-1), Water Code, to require "rural area districts" to designate a meeting place inside the district or within 10 miles of the boundary of the district if the district holds quarterly meetings.

Defines "rural area districts" as a district where more than half of the projected retail water or sewer connections are active and that is not wholly or partly located in a county that as of the 2010 Census had a population of 800,000 or more or bordered a county with a population of 800,000 or more.

If the board establishes that no practical place exists for meeting within 10 miles of the boundary of the district, the district may establish a meeting place or places in the county in which the district is located.

Requires water and sewer districts to include on the bill to a customer information leading the customer to the district's Internet site.

H.B. 1154 amends current law relating to a requirement that certain political subdivisions cause certain financial and operating information to be posted on an Internet website.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
