AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In 2019, the number of law enforcement officers (LEOs) who died by suicide (228) was nearly double the number killed in the line of duty (132). There were 19 LEO suicides in Texas alone. Several factors affect the mental health of our first responders. LEOs witness numerous critical incidents during their careers. Exposure to trauma such as these incidents can lead to several mental health conditions, including depression and post-traumatic stress disorder (PTSD). S.B. 64 seeks to provide support to our LEOs by creating a voluntary peer-to-peer support network focused on training LEOs to provide support to each other.

As proposed, S.B. 64 amended current law relating to a mental health program that includes peer-to-peer counseling for certain law enforcement personnel. S.B. 64 moves the program from the Health and Human Services Commission to the Texas Commission on Law Enforcement to better serve the needs of law enforcement officers.

S.B. 64 amends current law relating to a peer support network for certain law enforcement personnel.
