AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The purpose of this bill is to delete a sunset provision that requires the Dallas County Hospital District board of managers (board) to be reduced from 11 to seven after September 1, 2022. This bill repeals Health and Safety Code Sections 281.0211(c), (d) and (e).

Increasing the board's size would provide stronger expertise, experience, and perspectives in the boardroom. Additionally, more of the board's work would be done in its committees, thereby reducing the burden on individual members and making board service possible for more members of the community.

In March 2013, the corporate governance and compliance advisor to Parkland's board of managers released a report outlining recommendations for improved corporate governance of Parkland. Those recommendations include increasing the number of board members as well as the length of member terms.

To give effect to the report's recommendations, S.B. 1461 of the 84th Legislative Session expanded the board from seven to 11 members. It required each county commissioner and the county judge to appoint two members and it required one "at large" appointment. The bill also required three-year staggered terms and authorized the board to determine how to stagger the terms that are first established, whether by drawing lots or by other method. Once the board establishes the original staggered terms, the commissioners determine the date the terms expire.

This bill is supported by the board chair of PHHS and the majority of the Dallas County Commissioners Court.
