### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

S.B. 1181 would supply self-service storage facilities with an alternate process to regain use of storage space occupied by the property of a non-paying tenant.

Under current law, the storage facility must notify the non-paying tenant in writing before pursuing a lien on the stored property. If they do not respond, the facility may foreclose the lien and conduct a public auction to sell the stored property.

Sometimes that stored property is a vehicle, trailer, boat, or boat motor. S.B. 1181 would allow the storage facility to forego its lien and transfer the vehicle to a licensed vehicle storage facility, which specializes in that type of property. The licensed vehicle storage facility could then exercise its existing statutory authority to sell the property after providing notice to the property owner as prescribed under current law.

S.B. 1181 would preserve all existing notice requirements to the property owner. In fact, under the property transfer the bill would authorize, the owner would receive more notice because both storage facilities would separately serve statutorily required notice to the property owner.

At least 37 states currently provide this alternate process.

As proposed, S.B. 1181 amends current law relating to the towing of certain property from a self-service storage facility for disposition by a vehicle storage facility.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
