24 Subsection (b)(1) for lead in a school water source not later than  
25 24 hours after learning of the test results; and

2 (g) Each school district shall designate an employee to act  
3 as the point of contact for the commission and the public regarding  
4 testing for lead in school water sources under this section.

5 (h) The agency, in collaboration with the commission, the  
6 Department of State Health Services, regional education service  
7 centers, and other stakeholders, shall develop a model healthy and  
8 safe school water plan that may be used by a school district to  
9 comply with this section.

10 (i) To the extent that funds are available to the agency for  
11 the purpose, the agency shall develop a program under which the  
12 agency reimburses a school district for testing lead concentrations  
13 in water sources at the district.

14 SECTION 2. (a) Not later than December 31, 2021, the Texas
