SECTION 17. Section 531.001, Government Code, is amended by amending Subdivision (4-d) and adding Subdivision (6-a) to read as follows:

(4-d) "Platform" means the technology, system, software, application, modality, or other method through which a health professional remotely interfaces with a patient when providing a health care service or procedure as a telemedicine medical service, teledentistry dental service, or telehealth service.

(6-a) "Teledentistry dental service" has the meaning assigned by Section 111.001, Occupations Code.

SECTION 18. Section 531.0216, Government Code, is amended to read as follows:

Sec. 531.0216. PARTICIPATION AND REIMBURSEMENT OF TELEMEDICINE MEDICAL SERVICE PROVIDERS, TELEDENTISTRY DENTAL SERVICE PROVIDERS, AND TELEHEALTH SERVICE PROVIDERS UNDER MEDICAID. (a) The executive commissioner by rule shall develop and implement a system to reimburse providers of services under Medicaid for services performed using telemedicine medical services, teledentistry dental services, or telehealth services.

(c) The commission shall encourage health care providers
and health care facilities to provide telemedicine medical services, teledentistry dental services, and telehealth services in the health care delivery system. The commission may not require that a service be provided to a patient through telemedicine medical services, teledentistry dental services, or telehealth services.

(c-1) The commission shall explore opportunities to increase STAR Health program providers' use of telemedicine medical services in medically underserved areas of this state.

(d) Subject to Sections 111.004 and [Section] 153.004, Occupations Code, the executive commissioner may adopt rules as necessary to implement this section. In the rules adopted under this section, the executive commissioner shall:

(1) refer to the site where the patient is physically located as the patient site; and

(2) refer to the site where the physician, dentist, or health professional providing the telemedicine medical service, teledentistry dental service, or telehealth service is physically located as the distant site.

(f) Not later than December 1 of each even-numbered year, the commission shall report to the speaker of the house of representatives and the lieutenant governor on the effects of telemedicine medical services, teledentistry dental services, telehealth services, and home telemonitoring services on Medicaid in the state, including the number of physicians, dentists, health professionals, and licensed health care facilities using telemedicine medical services, teledentistry dental services,
telehealth services, or home telemonitoring services, the
geographic and demographic disposition of the physicians,
dentists, and health professionals, the number of patients
receiving telemedicine medical services, teledentistry dental
services, telehealth services, and home telemonitoring services,
the types of services being provided, the cost of utilization, and
the cost savings of telemedicine medical services, teledentistry
dental services, telehealth services, and home telemonitoring
services to Medicaid.

(g) The commission shall ensure that a Medicaid managed care
organization:

(1) does not deny reimbursement for a covered health
care service or procedure delivered by a health care provider with
whom the managed care organization contracts to a Medicaid
recipient as a telemedicine medical service, a teledentistry dental
service, or a telehealth service solely because the covered service
or procedure is not provided through an in-person consultation;

(2) does not limit, deny, or reduce reimbursement for
a covered health care service or procedure delivered by a health
care provider with whom the managed care organization contracts to
a Medicaid recipient as a telemedicine medical service, a

teledentistry dental service, or a telehealth service based on the
health care provider's choice of platform for providing the health
care service or procedure; and

(3) ensures that the use of telemedicine medical
services, teledentistry dental services, or telehealth services
promotes and supports patient-centered medical homes by allowing a
Medicaid recipient to receive a telemedicine medical service, teledentistry dental service, or telehealth service from a provider other than the recipient's primary care physician or provider, except as provided by Section 531.0217(c-4), only if:

(A) the telemedicine medical service, teledentistry dental service, or telehealth service is provided in accordance with the law and contract requirements applicable to the provision of the same health care service in an in-person setting, including requirements regarding care coordination; and

(B) the provider of the telemedicine medical service, teledentistry dental service, or telehealth service gives notice to the Medicaid recipient's primary care physician or provider regarding the [telemedicine medical service or telehealth] service, including a summary of the service, exam findings, a list of prescribed or administered medications, and patient instructions, for the purpose of sharing medical information, provided that the recipient has a primary care physician or provider and the recipient or, if appropriate, the recipient's parent or legal guardian, consents to the notice.

(h) The commission shall develop, document, and implement a monitoring process to ensure that a Medicaid managed care organization ensures that the use of telemedicine medical services, teledentistry dental services, or telehealth services promotes and supports patient-centered medical homes and care coordination in accordance with Subsection (g)(3). The process must include monitoring of the rate at which a telemedicine medical service, teledentistry dental service, or telehealth service provider gives
notice in accordance with Subsection (g)(3)(B).

(i) The executive commissioner by rule shall ensure that a federally-qualified [federally qualified] health center as defined by 42 U.S.C. Section 1396d(1)(2)(B) may be reimbursed for the originating site facility fee or the distant site practitioner fee or both, as appropriate, for a covered telemedicine medical service, teledentistry dental service, or telehealth service delivered by a health care provider to a Medicaid recipient. The commission is required to implement this subsection only if the legislature appropriates money specifically for that purpose. If the legislature does not appropriate money specifically for that purpose, the commission may, but is not required to, implement this subsection using other money available to the commission for that purpose.

(j) In complying with state and federal requirements to provide access to medically necessary services under the Medicaid managed care program, a Medicaid managed care organization determining whether reimbursement for a telemedicine medical service, teledentistry dental service, or telehealth service is appropriate shall continue to consider other factors, including whether reimbursement is cost-effective and whether the provision of the service is clinically effective.

SECTION 19. The heading to Section 531.02162, Government Code, is amended to read as follows:

Sec. 531.02162. MEDICAID SERVICES PROVIDED THROUGH TELEMEDICINE MEDICAL SERVICES, TELEDENTISTRY DENTAL SERVICES, AND TELEHEALTH SERVICES TO CHILDREN WITH SPECIAL HEALTH CARE NEEDS.
SECTION 20. Sections 531.02162(b) and (c), Government Code, 
are amended to read as follows:

(b) The executive commissioner by rule shall establish
policies that permit reimbursement under Medicaid and the child
health plan program for services provided through telemedicine
medical services, teledentistry dental services, and telehealth
services to children with special health care needs.

(c) The policies required under this section must:

(1) be designed to:

(A) prevent unnecessary travel and encourage
efficient use of telemedicine medical services, teledentistry
dental services, and telehealth services for children with special
health care needs in all suitable circumstances; and

(B) ensure in a cost-effective manner the
availability to a child with special health care needs of services
appropriately performed using telemedicine medical services,
teledentistry dental services, and telehealth services that are
comparable to the same types of services available to that child
without the use of telemedicine medical services, teledentistry
dental services, and telehealth services; and

(2) provide for reimbursement of multiple providers of
different services who participate in a single session of
telemedicine medical services, teledentistry dental services,
and telehealth services, or any combination of those services,
for a child with special health care needs, if the
commission determines that reimbursing each provider for the
session is cost-effective in comparison to the costs that would be
involved in obtaining the services from providers without the use
of telemedicine medical services, teledentistry dental services,
and telehealth services, including the costs of transportation and
lodging and other direct costs.

SECTION 21. Subchapter B, Chapter 531, Government Code, is
amended by adding Section 531.02172 to read as follows:

Sec. 531.02172. REIMBURSEMENT FOR TELEDENTISTRY DENTAL
SERVICES. (a) The commission by rule shall require each health and
human services agency that administers a part of the Medicaid
program to provide Medicaid reimbursement for teledentistry dental
services provided by a dentist licensed to practice dentistry in
this state.

(b) The commission shall require reimbursement for a
teledentistry dental service at the same rate as the Medicaid
program reimburses for the same in-person dental service. A
request for reimbursement may not be denied solely because an
in-person dental service between a dentist and a patient did not
occur. The commission may not limit a dentist's choice of platform
for providing a teledentistry dental service by requiring that the
dentist use a particular platform to receive reimbursement for the
service.

(c) The State Board of Dental Examiners, in consultation
with the commission and the commission's office of inspector
general, as appropriate, may adopt rules as necessary to:

(1) ensure that appropriate care, including quality of
care, is provided to patients who receive teledentistry dental
services; and
(2) prevent abuse and fraud through the use of
teledentistry dental services, including rules relating to filing
claims and the records required to be maintained in connection with
teledentistry dental services.

SECTION 22. The heading to Section 62.157, Health and
Safety Code, is amended to read as follows:
Sec. 62.157. TELEMEDICINE MEDICAL SERVICES, TELEDENTISTRY
DENTAL SERVICES, AND TELEHEALTH SERVICES FOR CHILDREN WITH SPECIAL
HEALTH CARE NEEDS.

SECTION 23. Sections 62.157(a) and (b), Health and Safety
Code, are amended to read as follows:
(a) In providing covered benefits to a child with special
health care needs, a health plan provider must permit benefits to be
provided through telemedicine medical services, teledentistry
dental services, and telehealth services in accordance with
policies developed by the commission.
(b) The policies must provide for:
(1) the availability of covered benefits
appropriately provided through telemedicine medical services,
teledentistry dental services, and telehealth services that are
comparable to the same types of covered benefits provided without
the use of telemedicine medical services, teledentistry dental
services, and telehealth services; and
(2) the availability of covered benefits for different
services performed by multiple health care providers during a
single [telemedicine medical services and telehealth services]
session of telemedicine medical services, teledentistry dental
services, telehealth services, or any combination of those services, if the executive commissioner determines that delivery of
the covered benefits in that manner is cost-effective in comparison to the costs that would be involved in obtaining the services from
providers without the use of telemedicine medical services, teledentistry dental services, and telehealth services, including the costs of transportation and lodging and other direct costs.

SECTION 24. Section 62.1571, Health and Safety Code, is amended to read as follows:

Sec. 62.1571. TELEMEDICINE MEDICAL SERVICES AND TELEDENTISTRY DENTAL SERVICES. (a) In providing covered benefits to a child, a health plan provider must permit benefits to be provided through telemedicine medical services and teledentistry dental services in accordance with policies developed by the commission.

(b) The policies must provide for:

(1) the availability of covered benefits appropriately provided through telemedicine medical services and teledentistry dental services that are comparable to the same types of covered benefits provided without the use of telemedicine medical services and teledentistry dental services; and

(2) the availability of covered benefits for different services performed by multiple health care providers during a single session of telemedicine medical services, teledentistry dental services, or both services, if the executive commissioner determines that delivery of the covered benefits in that manner is cost-effective in comparison to the costs that would be involved in
obtaining the services from providers without the use of
telemedicine medical services or teledentistry dental services,
including the costs of transportation and lodging and other direct
costs.

(c) [(d)] In this section, "teledentistry dental service" and "telemedicine medical service" have the meanings assigned by Section 531.001, Government Code.

SECTION 25. The heading to Chapter 1455, Insurance Code, is amended to read as follows:

(1) must provide coverage for a covered health care service or procedure delivered by a preferred or contracted health professional to a covered patient as a telemedicine medical service, teledentistry dental service, or telehealth service on the same basis and to the same extent that the plan provides coverage for the service or procedure in an in-person setting; and

(2) may not:

(A) exclude from coverage a covered health care service or procedure delivered by a preferred or contracted health professional to a covered patient as a telemedicine medical service, a teledentistry dental service, or a telehealth service solely because the covered health care service or procedure is not provided through an in-person consultation; and
