1 BE IT RESOLVED, BY THE House of Representatives of the State
2 of Texas, that House Rule 13, Section 9, be suspended in part as
3 provided by House Rule 13, Section 9(f) to enable consideration of,
4 and action on, the following specific matters which may be
5 contained in the Conference Committee Report on Senate Bill 1.

6 1. Format Changes

7 For each agency and institution of higher education, the Conference
8 Committee Report moves the informational item entitled
9 "Supplemental Appropriations Made in Riders" from immediately
10 following the "Schedule of Exempt Positions" to immediately after
11 the grand total of all appropriations made in strategies.

12 For each general academic institution, service agency, health
13 center, health science center, technical college and system office,
14 the Conference Committee report combines all strategy
15 appropriations into one single appropriation with the individual
16 strategies shown, for information purposes only, as the first rider
17 in the bill pattern. This format change does not affect any amounts
18 of appropriations or any methods of financing for any
19 appropriations.

VI. SPECIAL PROVISIONS RELATING TO ALL HEALTH AND HUMAN SERVICES AGENCIES

A. Suspend House Rule 13, Section 9a (1) to allow the Conference Committee to change, alter, or amend text which is not in disagreement to read as follows:

Sec. 4. Federal Match Assumptions and Limitations on Use of Available General Revenue Funds.

- a. **Federal Match Assumptions.** The following percentages reflect federal match assumptions used in Article II of this Act.

Federal Medical Assistance Percentage (FMAP)

	<u>2022</u>	<u>2023</u>
Federal Fiscal Year	60.80%	61.09%
State Fiscal Year	60.88%	61.07%

Enhanced Federal Medical Assistance Percentage (EFMAP)

	<u>2022</u>	<u>2023</u>
Federal Fiscal Year	72.56%	72.76%
State Fiscal Year	72.62%	72.74%

- b. **Enhanced Match Assumptions and Reporting.** Health and human services agencies listed in Article II of this Act shall submit to the Legislative Budget Board and the Governor the monthly number of clients receiving services eligible for any enhanced federal match as well as the amount of eligible expenditures subject to an enhanced match, by strategy. The data shall be submitted on a monthly basis in a format specified by the Legislative Budget Board. For purposes of this section, enhanced federal matches are defined as an increase to the usual matching rate (regardless of what the usual match is) that are, or become, available under Medicaid or another federally-matched program. Enhanced federal matches include, but are not limited to, those made available through the Money Follows the Person demonstration and the Community First Choice Program. Whether or not a match meets the definition of enhanced federal match for purposes of this section will be at the discretion of the Legislative Budget Board.

Appropriations to the Health and Human Services Commission in Article II of this Act have been adjusted to reflect \$151,242,730 increased Federal Funds and reduced General Revenue Funds due to enhanced matches under the Community First Choice program.

Any other Article II agency is still subject to the requirements of subsections (b) and (c) of this provision if any agency expenditures receive an enhanced federal match.

- c. **Limitations on Use of Available General Revenue Funds.** Notwithstanding the limitations of Article IX, Section 13.02(a), in the event the actual FMAP and EFMAP should be greater than shown in subsection (a), or the amount of increased Federal Funds and reduced General Revenue Funds due to enhanced matches should be greater than shown in subsection (b), or if any other matching rate becomes more favorable than the rate assumed in the General Appropriations Act, the health and human services agencies in Article II of this Act are authorized to expend the General Revenue Funds thereby made available only with the prior written approval of the Legislative Budget Board and Governor.

To request approval to expend available General Revenue Funds, an agency shall submit a written request to the Legislative Budget Board and the Governor. At the same time, the agency shall provide a copy of the request to the Comptroller of Public Accounts. The request shall include the following information, by fiscal year:

- (1) a detailed explanation of the proposed use(s) of the available General Revenue Funds and whether the expenditure(s) will be one-time or ongoing;
- (2) the amount available by strategy;
- (3) the strategy(ies) in which the funds will be expended and the associated amounts, including any matching Federal Funds;

- (4) an estimate of performance levels and, where relevant, a comparison to targets included in this Act; and
- (5) the capital budget and/or full-time equivalent impact.

Additional information requested by the Legislative Budget Board or the Governor should be provided in a timely manner. The request and information provided subsequently shall be prepared in a format specified by the Legislative Budget Board.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issue a written disapproval within 30 business days of the date on which the staff of the Legislative Budget Board concludes its review of the proposal to expend the funds and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

The Comptroller of Public Accounts shall not allow the expenditure of General Revenue Funds made available if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

B. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

C. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 9. System Support Services.

(a) **Appropriations for System Support Services.** Included in amounts appropriated in Article II of this Act are the following amounts for Article II system support services assessments:

- (1) \$106,399,548 in All Funds in fiscal year 2022 and \$106,302,798 in All Funds in fiscal year 2023 at the Department of Family and Protective Services (DFPS);

Amounts in this subsection do not include benefits, which are appropriated elsewhere in this Act.

(b) None of the funds appropriated to an agency listed in Article II of this Act shall be expended for system support services unless the following requirements are met:

- (1) **Reporting Requirements.** HHSC shall submit the following information at the agency and system level to the Legislative Budget Board and the Governor:
 - (A) **Annual Assessments.** By September 1 of each year
 - (i) amounts assessed for system support services, by service category and fund type, for the new fiscal year; and

DFPS and DSHS shall provide all necessary information to HHSC to complete the reports required by this subsection.

(2) **Notification of Anticipated Increases.** HHSC shall notify the Legislative Budget Board and the Governor if total expenditures for system support services are expected to exceed the amounts reported in subsection (a) by more than \$1,000,000 in combined General Revenue and General Revenue-Dedicated during the fiscal year or if HHSC implements any new projects or services not presented to the Legislature that will result in an increase in the amounts assessed to DFPS or DSHS. The notification shall include:

- (A) the reason(s) for the increase;
- (B) the estimated allocation of the increased cost between agencies by method-of-financing; and
- (C) how each agency will fulfill their estimated contribution.

Transferred appropriations shall only be expended by the receiving agency for system support services. This authority only applies if the appropriations to be transferred are appropriated in HHSC Goal L,

System Oversight and Program Support, and the transfer will not create or increase a supplemental need. This authority is contingent upon HHSC submitting prior written notification to the Legislative Budget Board and Governor. The notification shall include:

- (1) the reason for the transfer;
 - (2) amounts to be transferred by agency, strategy, method-of-financing, and fiscal year; and
 - (3) the capital budget impact.
- (d) **Limitations on Expenditures.** Amounts identified in subsection (a) and any amounts transferred pursuant to subsection (c) of this rider shall not be expended for a purpose other than system support services without prior written approval from the Legislative Budget Board and the Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

- (e) **Requests and Notifications.** Any requests or notifications submitted by an agency listed in Article II of this Act, pursuant to any rider or other provision of this Act, shall include the anticipated impact the request or notification will have on system support service assessments by agency and method-of-financing.

The Comptroller of Public Accounts shall not allow the expenditure of funds for system support services, including assessments if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the requirements of this provision have not been satisfied.

D. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 14. Limitation: Expenditure and Transfer of Public Health Medicaid Reimbursements.

- (a) **Appropriations.** Included in the amounts appropriated to the Department of State Health Services (DSHS) and the Health and Human Services Commission (HHSC) are the following amounts of Public Health Medicaid Reimbursements (Account No. 709):
- (1) Department of State Health Services:
 - (A) Strategy A.4.1, Laboratory Services: \$37,105,294 in fiscal year 2022 and \$37,197,270 in fiscal year 2023;

 - (B) Strategy G.2.1, Mental Health State Hospitals: \$47,303,996 in each fiscal year.

Revenue from Account No. 709 shall be distributed first to the item in subsection (a)(1) and then to the item in subsection (a)(2)(B) until the full amount of those appropriations is satisfied. Revenue from Account No. 709 shall be distributed to the appropriate agency within ten business days of receipt.

Appropriations from Account No. 709 shall be expended prior to utilization of General Revenue or General Revenue-Dedicated Funds in strategies identified in this subsection. In the event General Revenue or General Revenue-Dedicated Funds have been expended prior to the receipt of appropriations from Account No. 709, DSHS or HHSC shall reimburse General Revenue or General Revenue-Dedicated on a monthly basis.

HHSC may temporarily utilize funds identified in subsection (a)(2)(B) in Strategy A.4.1, Non-Full Benefit Payments, in August of 2023 if amounts identified in subsection (a)(2)(A) are expected to be available but have not yet been distributed.

(b) Limitation on Use of Public Health Medicaid Reimbursements (Account 709).

(1) In the event that Public Health Medicaid Reimbursement revenues exceed the amounts noted above, the funds are appropriated to DSHS to reimburse the cost of performing newborn screening and to the Newborn Screening Preservation Account, established in Health and Safety Code, Section 33.052. If this occurs, DSHS may notify the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor of the amount that DSHS projects will be received in excess of the amounts appropriated and any increased costs, along with sufficient information to reflect how the estimate was determined. If the Comptroller finds the information sufficient to support the projection of additional revenue, a finding of fact to that effect shall be issued to reflect additional revenue up to \$12,000,000 for the biennium to be made available to DSHS and deposited to the Newborn Screening Preservation Account. Amounts in excess of \$12,000,000 for the biennium may be made available only upon prior written approval from the Legislative Budget Board and the Governor. The request to expend the additional Public Health Medicaid Reimbursement funds shall include the following information:

- (A) the reason for and the amount of Public Health Medicaid Reimbursement revenue that exceeds the amounts in subsection (a) above, and whether this additional revenue will continue in future years;
- (B) a detailed explanation of the purpose(s) of the expenditure and whether the expenditure will be one-time or ongoing;
- (C) the name of the strategy or strategies affected by the expenditure and the FTEs for each strategy by fiscal year;
- (D) the impact of the expenditure on performance levels, and, where relevant, a comparison to targets included in this Act for the affected strategy or strategies; and
- (E) the impact of the expenditure on the capital budget.

The request shall be considered to be approved unless the Legislative Budget Board or the Governor issues a written disapproval within 30 business days after the date the Legislative Budget Board staff concludes its review of the proposal to expend the funds and forwards the review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. Any requests for additional information made by the Legislative Budget Board shall interrupt the counting of the 30 business days.

(2) In the event that Public Health Medicaid Reimbursement revenues and balances are insufficient to support the appropriations amounts identified in subsection (a), a reduction shall be made in HHSC Strategy A.4.1, Non-Full Benefit Payments.

(c) Addition of New Newborn Screening. In the event that additional screens are added to the Recommended Uniform Screening Panel in the biennium, additional revenue from the account shall be used as follows:

- (1) fund DSHS increased cost for the test; and
- (2) deposited to the credit of the Newborn Screening Preservation Account, established in Health and Safety Code, Section 33.052.

E. Suspend House Rule 13, Section 9a (3) to allow the Conference Committee to add text on any matter which is not in disagreement to read as follows:

 - (2) A copy of each report or petition submitted to the federal government relating to a federal grant requiring a state plan including petition disapprovals, expenditure reports, cost allocation revisions, and any loss of federal funding due to noncompliance with federal regulations; and
 - (3) Reports associated with Maintenance of Effort (MOE) for federal grants.
- (b) **Loss of Federal Funds.** All agencies listed in Article II of this Act shall notify the Legislative Budget Board and the Governor on a timely basis about emerging issues that could result in the loss of more than \$1,000,000 in federal funds assumed in this Act.
- (c) **General Revenue Associated with MOE.** The agencies listed in Article II of this Act shall not increase the state's MOE requirement for any federal grant without prior written approval of the Legislative Budget Board and the Governor. To request approval, the agency shall submit a written request to the Legislative Budget Board and the Governor that includes the following information:
 - (1) a detailed explanation of the need to increase the state's MOE requirement; and
 - (2) the impact the increase will have on future MOE requirements.
- (d) **Reporting of MOE for Federal Grants.** All agencies listed in Article II of this Act shall submit the following information to the Legislative Budget Board by October 1 and April 1 of each year for each federal grant received by the agency that has a MOE requirement:

 - (2) the time period of which the current MOE requirement applies;
 - (3) total expenditures made towards meeting the current MOE requirement;
 - (4) the time period for which current expenditures will impact future MOE requirements;
 - (5) projection of future MOE requirements based on current spending; and
 - (6) if the agency projects the current MOE requirement will not be fulfilled, a narrative explanation of why and the impact of not doing so, including any projected loss of federal funding.

V. Suspend House Rule 13, Section 9a (1) to allow the Conference Committee to change, alter, or amend text which is not in disagreement to read as follows:

Foundation School Program Funding. In addition to funds appropriated above, the Foundation School Program is funded with local school district tax revenue. Local school district tax rates are adopted by locally elected school board trustees. Local school property tax rates are not set by the Legislature.

Out of the funds appropriated above, and any other funds appropriated for the Foundation School Program during the 2022-23 biennium, a total of \$25,520,400,000 in fiscal year 2022 and \$26,275,300,000 in fiscal year 2023 shall represent the sum-certain appropriation to the Foundation School Program. The total appropriation may not exceed the sum-certain amount. This appropriation includes allocations under Chapters 46, 48 and 49 of the Texas Education Code.

Formula Funding: The Commissioner shall make allocations to local school districts under Chapters 46, 48 and 49 based on:

- (a) estimates of average daily attendance provided by the Texas Education Agency in March 2021;
- (b) local district tax rates as determined by the Legislative Budget Board;
- (c) final tax year 2020 property values; and
- (d) assumed increases in property values, and the estimates of local tax collections on which they are based, as estimated by the Comptroller of Public Accounts, of 1.84 percent for tax year 2021 and by 4.36 percent for tax year 2022.

The estimates identified in subsections (a) - (d) are projections provided by the Comptroller of Public Accounts and Texas Education Agency and used solely to determine initial state aid payments to school districts, and do not factor into the calculations of local tax base changes. Actual property value changes are determined by local appraisal districts.

To the extent that estimates provided for in subsections (a) - (d) above differ from a school district's actual average daily attendance, tax rates, property values, or local tax collections, the Commissioner shall settle-up with local school districts pursuant to Rider 7, Appropriation of Audit Adjustments, Settle-Up Funds and Attendance Credit Revenues and applicable provisions in Chapters 46, 48, and 49 of the Education Code.

For purposes of distributing the Foundation School Program basic tier state aid appropriated above and in accordance with §48.051 of the Texas Education Code, the Basic Allotment is established at \$6,160 in fiscal year 2022 and \$6,160 fiscal year 2023.

For purposes of distributing the Foundation School Program enrichment tier state aid appropriated above and in accordance with §48.202(a-1)(1), the Guaranteed Yield is \$98.56 in fiscal year 2022 and \$98.56 in fiscal year 2023, and in accordance with §48.202(a-1)(2), the Guaranteed Yield is \$49.28 in fiscal year 2022 and \$49.28 in fiscal year 2023.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, \$70,000,000 in each fiscal year of the biennium out of the Foundation School Fund No. 193 is for the New Instructional Facilities Allotment under §48.152 of the Texas Education Code.

Included in amounts appropriated above and allocated by this rider to the Foundation School Program, and pursuant to Education Code Sec. 42.168, the School Safety Allotment is set at \$9.72 per student in average daily attendance, estimated to be \$50,000,000 in each fiscal year.

From the amount appropriated above to the Texas Education Agency for Strategy A.1.1, FSP - Equalized Operations, in each year of the 2022-23 biennium, the Commissioner may not spend more than the amount that, together with all other amounts appropriated from the Foundation School Fund or another source of the Foundation School Program or for paying the costs of school property tax relief, is necessary to achieve a tax rate compression percentage, as defined by Sections 48.255, 48.2551, and 48.2552, Texas Education Code, and fully fund the school funding formulas under Chapters 48 and 49, Texas Education Code, without the prior approval of the Legislative Budget Board.

Pursuant to Section 48.2552(c) of the Education Code, in each fiscal year of the 2022-23 biennium, the state compression percentage as calculated in Section 48.255 of the Education Code, shall be reduced by 0.3 percent.

Notwithstanding any other provision of this Act, the Texas Education Agency may:

- (a) make transfers as appropriate between Strategy A.1.1, FSP - Equalized Operations, and Strategy A.1.2, FSP - Equalized Facilities; and
- (b) transfer Foundation School Program funds from fiscal year 2023 to 2022 to the extent necessary to avoid reductions in state aid as authorized by Texas Education Code §48.266(f).

The TEA shall notify the Legislative Budget Board and the Governor of any such transfers at least 15 days prior to the transfer.

The Texas Education Agency shall submit reports on the prior month's expenditures on programs described by this rider no later than the 20th day of each month to the Legislative Budget Board and the Governor's Office in a format determined by the Legislative Budget Board in cooperation with the agency.

Contingent on the Commissioner of Education identifying a budget surplus of Foundation School Program funds appropriated above in either fiscal year of the 2022-23 biennium, the Commissioner shall notify the Legislative Budget Board and the Office of the Governor in writing no later than 30 calendar days before taking any action pursuant to the Education Code §§7.062, 48.258, 48.259, 48.260, 48.261, or 48.265.

Appropriations provided above in Strategy A.1.1, FSP-Equalized Operations, fully fund an estimated \$3,130,000,000 in projected student enrollment growth.

W. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

The Commissioner of Education shall allocate \$57,115,009 in fiscal year 2022 and \$57,115,008 in fiscal year 2023 to the Windham Schools based on contact hours for the best 180 of 210 school days in each year of the biennium. The contact hour rates for the 2022-2023 biennium are estimated to be: \$4.69807 for academic education, \$3.87648 for vocational education.

The Windham School District shall use funds appropriated above to serve those students whose participation will help achieve the goals of reduced recidivism and the increased success of former inmates in obtaining and maintaining employment. To achieve these goals, younger offenders with the lowest educational levels and the earliest projected release or parole eligibility dates should receive high priority. This policy shall not preclude the Windham School District from serving other populations according to needs and resources. For students who successfully complete the district's program during the 2020-21 biennium, the Windham School District shall report to the Eighty-eighth Legislature on the following: recidivism rates, employment rates, and attainment of GEDs, high school diplomas, professional certifications, and adult education literacy levels.

LXXV. SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES OF HIGHER EDUCATION

A. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 26. General Academic Funding. Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

- 1. Instruction and Operation Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2022-23 biennium is \$52.31 in fiscal year 2022 and fiscal year 2023.

Weighting is determined by the following matrix:

	Lower Div.	Upper Div.	Masters	Doctoral	Special Professional
Liberal Arts	1.00	1.82	4.72	14.74	
Science	1.38	2.75	7.67	22.30

Technology	1.89	2.42	4.86	36.15	
Nursing	1.35	2.07	2.68	10.71	
Developmental Ed	1.00				
Veterinary Medicine					22.77

- Teaching Experience Supplement.** For the 2022-23 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.
- Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is \$5.23 in fiscal year 2022 and fiscal year 2023.
- Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.
- The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.
- Small Institution Supplement.** The Small Institution Supplement, as a set-aside within the General Academic Institution Infrastructure Formula, shall provide supplemental funding to general academic institutions with headcounts of fewer than 10,000 students. For the 2022-2023 biennium, general academic institutions with a headcount of fewer than 5,000 students shall receive a small institution supplement of \$2,633,133. The small institution supplement shall decrease proportionate to the increase in headcount above 5,000 until the institution reaches 10,000 headcount. Once an institution reaches 10,000 headcount, it shall no longer be eligible for this supplement.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2022.

B. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sec. 27. Health Related Institutions Funding. Appropriations made in this Act for formula funding for health related institutions shall consist of four formulas plus supplemental non-formula items.

- Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full-time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$9,359 in fiscal year 2022 and fiscal year 2023:

<u>Program</u>	<u>Weight Per Student</u>
Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Biomedical Informatics	1.750
Dental	4.601
Medical	4.753

Instructional programs at remote locations and the main campus at The University of Texas Health Science Center at Tyler with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$5.58 in fiscal year 2022 and fiscal year 2023 for all health related institutions.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall be included in the total funding for hospital and center operations.

3. **Research Funding.** The health related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 0.93 percent in fiscal year 2022 and fiscal year 2023 of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Research at Clinical Partners.** Research conducted by faculty of a health related institution under a contract with a clinical partner shall be considered in the formula calculations for the Research Enhancement and E&G Space Support strategies as defined under Article III, Special Provisions Relating Only To State Agencies of Higher Education, Section 27, subsection (2) Infrastructure Support Formula and Sec. 27, subsection (3) Research Funding.
5. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of \$11,359 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2022 and fiscal year 2023 are \$5,679 per resident.
6. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.
7. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for non-formula support items and hospital and clinic operations.
8. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2022.
9. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
 - a. The General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.2.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D. Anderson Cancer Center. General Revenue appropriations for fiscal year 2022 and 2023 shall be based on the number of total Texas cancer patients served in 2020. The rate per patient shall be \$1,657 in fiscal year 2022 and fiscal year 2023 for Strategy A.2.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.
 - b. The University of Texas Health Science Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching

programs, and provide diagnosis and treatment of inpatients and outpatients with pulmonary, respiratory and other diseases of the chest. General Revenue funds appropriated to The University of Texas Health Science Center at Tyler in Strategy A.1.4, Chest Disease Center Operations, shall be based on the number of cases in which disease diagnoses are treated by The University of Texas Health Science Center at Tyler. General Revenue appropriations for fiscal year 2022 and 2023 shall be based on the number of such cases treated in fiscal year 2020. The rate per case for fiscal year 2022 and 2023 shall be \$166. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.

- c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

10. **Mission Specific Support - Performance Based Research Operations Formula.** The University of Texas Southwestern Medical Center has a mission that is research intensive. To enhance research capacity, assist the institution in leveraging research grants and gifts, and support expansion of the institution's research operations, additional research formula funding shall be provided based on the following criteria:

- a. General Revenue Research Operations Formula funding allocated to The University of Texas Southwestern Medical Center in Strategy B.1.2, Performance Based Research Operations Formula, shall be guided to the institution through two mechanisms that measure the institution's performance.
 - 1) Base Match allocations shall be based on the institution's average annual research expenditures for the previous three-year period as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Base Match rate shall be 12.63 percent for each fiscal year of the 2022-23 biennium. The Base Match rate shall be adjusted based on the average annualized increase or decrease in research expenditures from the prior biennium's three-year base average.
 - 2) Performance Incentive Tiered Match allocations shall be based on the increase of the institution's average annual research expenditures since the prior biennium. The calculation of this increase shall be based on the average annual research expenditures for the two-year base period preceding each biennium, as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Tiered Match shall allocate funding in three tiers that increase on a sliding scale. Tier 1 shall provide matching General Revenue funds at a rate of 25.0 percent for any increase in the institution's average annual research expenditures between \$0 and \$10,000,000. Tier 2 shall provide matching General Revenue funds at a rate of 50.0 percent for any increase in the institution's average annual research expenditures between \$10,000,000 and \$20,000,000. Tier 3 shall provide matching General Revenue funds at a rate of 75.0 percent for any increase in the institution's average annual research expenditures greater than \$20,000,000.

The institution's Performance Based Research Operations Formula shall be expended for the purpose of research operations, expanding research capacity, and pursuing excellence in its research mission. Any unexpended balances as of August 31, 2022, are hereby appropriated for the same purpose for the fiscal year beginning September 1, 2022.

For formula funding purposes, the amount of growth in total funding for the Performance Based Research Operations Formula from one biennium to another may not exceed 5.0 percent of the institution's total General Revenue appropriations in the prior biennium, excluding tuition revenue bond debt service. The Legislative Budget Board shall implement the funding in accordance with this limitation. In a biennium in which funding is not available to meet the institution's performance-driven target, the formula mechanisms and performance-calculated match rates remain while the Legislature determines the General Revenue provided. In the FY 2022-23 biennium, \$114,849,890 in General Revenue is provided.

11. **Mission Specific Support - Performance Based Research Operations Formula.** To enhance research capacity at The University of Texas Health Science Center at Houston, assist the institution in leveraging research grants and gifts, and support expansion of the institution's research operations, additional research formula funding shall be provided based on the following

 - 1) Base Match allocations shall be based on the institution's average annual research expenditures for the previous three-year period as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Base Match rate shall be 6.17 percent for each fiscal year of the 2022-23 biennium. The Base Match rate shall be adjusted based on the average annualized increase or decrease in research expenditures from the prior biennium's three-year base average.
 - 2) Performance Incentive Tiered Match allocations shall be based on the increase of the institution's average annual research expenditures since the prior biennium. The calculation of this increase shall be based on the average annual research expenditures for the two-year base period preceding each biennium, as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Tiered Match shall allocate funding in three tiers that increase on a sliding scale. Tier 1 shall provide matching General Revenue funds at a rate of 25.0 percent for any increase in the institution's average annual research expenditures between \$0 and \$10,000,000. Tier 2 shall provide matching General Revenue funds at a rate of 50.0 percent for any increase in the institution's average annual research expenditures between \$10,000,000 and \$20,000,000. Tier 3 shall provide matching General Revenue funds at a rate of 75.0 percent for any increase in the institution's average annual research expenditures greater than \$20,000,000.

The institution's Performance Based Research Operations Formula shall be expended for the purpose of research operations, expanding research capacity, and pursuing excellence in its research mission. Any unexpended balances as of August 31, 2022, are hereby appropriated for the same purpose for the fiscal year beginning September 1, 2022.

For formula funding purposes, the amount of growth in total funding for the Performance Based Research Operations Formula from one biennium to another may not exceed 5.0 percent of the institution's total General Revenue appropriations in the prior biennium, excluding tuition revenue bond debt service. The Legislative Budget Board shall implement the funding in accordance with this limitation. In a biennium in which funding is not available to meet the institution's performance-driven target, the formula mechanisms and performance-calculated match rates remain while the Legislature determines the General Revenue provided. In the FY 2022-23 biennium, \$25,476,160 in General Revenue is provided.

12. **Mission Specific Support - Performance Based Research Operations Formula.** To enhance research capacity at The University of Texas Health Science Center at San Antonio, assist the institution in leveraging research grants and gifts, and support expansion of the institution's research operations, additional research formula funding shall be provided based on the following criteria:

 - 1) Base Match allocations shall be based on the institution's average annual research expenditures for the previous three-year period as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Base Match rate shall be 8.23 percent for each fiscal year of the 2022-23 biennium. The Base Match rate shall be adjusted based on the average annualized increase or decrease in research expenditures from the prior biennium's three-year base average.
 - 2) Performance Incentive Tiered Match allocations shall be based on the increase of the institution's average annual research expenditures since the prior biennium. The calculation of this increase shall be based on the average annual research expenditures for the two-year base period preceding each biennium, as reported to the Higher Education Coordinating Board, excluding research expenditures from state appropriations. The Tiered Match shall allocate funding in three tiers that increase on a sliding scale. Tier 1 shall provide matching General Revenue funds at a rate of 25.0 percent for any increase in the institution's average annual research expenditures between \$0 and \$10,000,000. Tier 2

shall provide matching General Revenue funds at a rate of 50.0 percent for any increase in the institution's average annual research expenditures between \$10,000,000 and \$20,000,000. Tier 3 shall provide matching General Revenue funds at a rate of 75.0 percent for any increase in the institution's average annual research expenditures greater than \$20,000,000.

The institution's Performance Based Research Operations Formula shall be expended for the purpose of research operations, expanding research capacity, and pursuing excellence in its research mission. Any unexpended balances as of August 31, 2022, are hereby appropriated for the same purpose for the fiscal year beginning September 1, 2022.

For formula funding purposes, the amount of growth in total funding for the Performance Based Research Operations Formula from one biennium to another may not exceed 5.0 percent of the institution's total General Revenue appropriations in the prior biennium, excluding tuition revenue bond debt service. The Legislative Budget Board shall implement the funding in accordance with this limitation. In a biennium in which funding is not available to meet the institution's performance-driven target, the formula mechanisms and performance-calculated match rates remain while the Legislature determines the General Revenue provided. In the FY 2022-23 biennium, \$25,448,000 in General Revenue is provided.

13. **Mission Specific Support - Multicategorical Teaching Hospital Support.** The University of Texas Medical Branch at Galveston operates a state owned hospital with a statutorily-based mission to operate a hospital and health system. The rate per patient for each fiscal year of the 2022-23 biennium shall be \$177.97. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.
 - b. For informational purposes, total amounts identified for strategies in this subsection total \$17,123,921 in fiscal year 2022 and \$17,123,922 in fiscal year 2023 for direct costs and indirect administration and \$4,035,632 in fiscal year 2022 and \$4,063,202 in fiscal year 2023 for "other direct and indirect costs".

These appropriations are contingent upon the Department of Agriculture (TDA) assessing fees sufficient to generate revenue to cover the General Revenue appropriations for each strategy as well as the related "other direct and indirect costs". In the event that actual and/or projected revenue collections in strategies above are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to the affected strategy to be within the amount of revenue expected to be available.

- b. TDA shall provide a report to the Comptroller of Public Accounts and the Legislative Budget Board no later than the end of the second business week in March, June, and September (for the second, third, and fourth quarters) detailing the following information at both the strategy level and individual program activity level:
 - (1) The amount of fee generated revenues collected for each of the cost recovery programs. This information shall be provided in both strategy level detail and individual program detail;
 - (2) A projection of the revenues for each cost recovery program TDA estimates it will collect by the end of the respective fiscal year. This information shall be provided in both strategy level detail and individual program detail;
 - (3) A detailed explanation of the causes and effects of the current and anticipated fluctuations in revenue collections;
 - (4) The amount of expenditures for each of the cost recovery programs; and
 - (5) Any fee changes made during the fiscal year and the anticipated revenue impacts of those changes.

In the event that reported expenditures exceed revenues collected for any cost recovery program, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to the affected strategy by an amount specified by the Legislative Budget Board.

- c. Also, contingent on the generation of such revenue required above to fund TDA's cost recovery programs and related "other direct and indirect costs" TDA's "Number of Full-Time Equivalent" includes 178.2 FTEs in fiscal year 2022 and 178.2 FTEs in fiscal year 2023. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may reduce the FTE cap provided by this Act to reflect the number of FTEs funded by the amount of revenue expected to be available.
- d. If cost recovery revenues collected in the first year of the biennium exceed the cost recovery requirements above, the excess revenue may be counted towards the cost recovery requirement in the second year of the biennium in addition to the revenues collected in the second year.

D. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Contingency for House Bill 2089. Out of amounts appropriated above and contingent on enactment of House Bill 2089, or similar legislation, relating to development of an early detection and mitigation program of plant pests and diseases by the Texas Department of Agriculture, by the Eighty-seventh Legislature, Regular Session, the Texas Department of Agriculture is appropriated \$250,000 each fiscal year in General Revenue funding in Strategy B.1.1, Plant Health and Seed Quality, to implement the provisions of the legislation.

E. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Appropriation Restriction on Feral Hog Abatement Using Certain Pesticides.

- a. Except as provided by Subsections b and c of this rider, no funds appropriated to the Department of Agriculture in this Act may be used for the implementation of warfarin on feral hogs.
- b. The Department of Agriculture may use amounts appropriated by this Act to register a pesticide product containing warfarin for use in this state to control feral hogs only if that registration is limited to use by pesticide applicators licensed by the department who are participating in an experimental use program conducted by the Texas A&M AgriLife Extension Service to evaluate the product's efficacy in this state and the product is registered by the United States Environmental Protection Agency for use to control feral hogs.

A property owner can participate in the Texas A&M AgriLife Extension Service experimental use program by hiring a pesticide applicator licensed by the department and complying with Texas A&M AgriLife Extension Service guidelines for participation in the experimental use program. A property owner with a pesticide applicator licensed by the department failing to comply with the Texas A&M AgriLife Extension Service guidelines may be prohibited from participating in the program. A pesticide applicator may lose the pesticide applicator license issued by the department for failing to comply with Texas A&M AgriLife Extension Service guidelines for participation in the experimental use program.

- c. If the department determines, based on available data including the preliminary or final results of the experimental use program described by Subsection b of this rider, that the use of a pesticide product containing warfarin is safe and effective in assisting landholders in this state in their efforts to mitigate the economic harm and damage caused by feral hogs, then the limitations under Subsections a and b of this rider do not apply after the earlier of:
 - (1) The second anniversary of the date a pesticide product is registered by the department for the limited use described by Subsection b of this rider; or
 - (2) The date the Texas A&M AgriLife Extension Service delivers a report advising the department regarding the registration of a pesticide product evaluated under the experimental use program.

Air Quality Planning. Amounts appropriated above include \$4,500,000 for the biennium out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, for air quality planning activities to reduce ozone in “affected counties” (as defined in Texas Health and Safety Code §386.001(2)) not designated as nonattainment areas for the O3 National Ambient Air Quality Standards (NAAQS) as of September 1, 2020 and other areas at significant risk of being designated nonattainment for the O3 NAAQS in the future as approved by the Texas Commission on Environmental Quality (TCEQ). These activities may be carried out through interlocal agreements.

Expenditure of these funds are limited to: inventorying emissions, monitoring of pollution levels, and administration of the program. The TCEQ shall allocate a base amount of \$281,250 to each state planning region containing such areas and the remaining funds proportionally to each state planning region with a combined population of affected counties in excess of 350,000. Grants issued from appropriations identified in this rider should require that no more than 10 percent of the allocation be used for administrative purposes and prohibit the expenditure of the following: marketing and outreach activities, bicycle use programs, carpooling awareness, environmental awareness campaigns, and locally enforceable pollution reduction programs. The grant recipients shall channel the funds to those projects most useful for the State Implementation Plan (SIP).

For informational purposes, the affected counties that are not designated “nonattainment” for the O3 NAAQS as of September 1, 2020 include Bastrop, Caldwell, Comal, El Paso, Gregg, Guadalupe, Hardin, Harrison, Hays, Henderson, Hood, Hunt, Jefferson, Nueces, Orange, Rusk, San Patricio, Smith, Travis, Upshur, Williamson, and Wilson Counties. Additional “attainment/unclassifiable” areas may also be added by TCEQ to this grant program based on their status as being part of a core-based statistical area (CBSA) with O3 design values in excess of 60 parts per billion (ppb).

N. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Of the fees, fines, and other miscellaneous revenues as authorized and generated by the operation of the vehicle emissions inspection and maintenance program pursuant to §382.202, Health and Safety Code, 20 percent shall cover, at a minimum, the cost of appropriations made above in Strategy A.1.1, Air Quality Assessment and Planning, out of Clean Air Account No. 151, as well as “other direct and indirect costs” made elsewhere in this Act associated with this program. Direct costs for the vehicle emissions inspection and maintenance program are estimated to be \$2,004,799 in fiscal year 2022 and \$2,004,799 in fiscal year 2023 and “other direct and indirect costs” are estimated to be \$429,606 for fiscal year 2022 and \$429,232 in fiscal year 2023. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

In addition, if additional counties enter the vehicle emissions inspection and maintenance program during fiscal years 2022-23, 20 percent of revenues generated from the vehicle emissions and inspections fee established in Health and Safety Code, §382.202(e) in the additional counties in each fiscal year are hereby appropriated to the Texas Commission on Environmental Quality for the same purposes.

Additional information requested by the Legislative Budget Board regarding the report submitted by the commission shall be provided in a timely manner.
- c. It is the intent of the legislature, to the extent permitted by federal and state law, that funds appropriated above in Strategy E.1.4, Rio Grande River Compact, be utilized to ensure that all costs related to the litigation between the State of Texas and the State of New Mexico over the equitable distribution of water according to the Rio Grande Compact, estimated to be \$30,621,608, be recovered and deposited to the credit of the General Revenue Fund.
- d. W. Suspend House Rule 13, Section 9a (4) to allow the Conference Committee to add text on any matter which is not included in either the House or Senate version of the bill to read as follows:

Sporting Goods Sales Tax (SGST).

- (a) **Appropriations.** Amounts appropriated above to the Texas Parks and Wildlife (TPWD) include \$183,117,000 in fiscal year 2022 and \$193,347,000 in fiscal year 2023 (including End-of-Article Appropriations for Benefits, Transfers to ERS for Retiree Insurance, and Debt Service for Statewide Park Repairs) from limited sales, excise, and use tax revenue identified as Sporting Goods Sales Tax (SGST) as reflected below in Subsection (c) to comply with Article VIII, Section 7(d) of the Texas Constitution. This appropriation represents the statutory maximum allocation of SGST revenue to TPWD, pursuant to Tax Code, Section 151.801 (93.0 percent of the total SGST revenue), as calculated in the Comptroller of Public Accounts' Biennial Revenue Estimate (BRE), net of appropriations made elsewhere in this Act for benefits and debt service.

If the Comptroller determines that the maximum allocation of SGST revenue available to TPWD for the 2022-23 biennium exceeds the amounts appropriated in this Act to TPWD and elsewhere for benefits and debt service, the difference is appropriated to TPWD. This appropriation of additional SGST revenue shall be allocated to the strategies and accounts that receive SGST revenue transfers by the Legislative Budget Board in consultation with TPWD based on a current assessment of needs, excluding totals for benefits and debt service. Notwithstanding the capital budget provisions in Rider 2, Capital Budget, and Article IX, Section 14.03, to the extent any of the additional SGST is directed by the Legislative Budget Board for state and local park related capital budget purposes as a result of the allocation determined by the above process, TPWD's capital budget authority is increased for these purposes and such increase shall not count towards the limitations imposed by capital budget provisions elsewhere in this Act.

- (b) **SGST Method of Financing Changes.** TPWD may request approval from the Legislative Budget Board to change SGST methods of financing provided in initial strategy appropriations above within the following accounts to which SGST may be transferred to: (1) State Parks Account No. 64, (2) Texas Recreation and Parks Account No. 467, (3) Parks and Wildlife Conservation and Capital Account No. 5004, and (4) Large County and Municipality Recreation and Parks Account No. 5150. This provision does not apply to initial SGST appropriations provided in strategies for capital budget projects included in TPWD's Rider 2, Capital Budget. TPWD shall request approval for any changes from the Legislative Budget Board in a format prescribed by the Legislative Budget Board that provides information regarding the purposes and the projected impact of the changes and expenditures. A request submitted under this provision shall be considered to be approved unless the Legislative Budget Board issues a written disapproval within 30 business days after the date on which the staff of the Legislative Budget Board concludes its review of the request. Additional information requested by the Legislative Budget Board regarding a request submitted by TPWD pursuant to this rider shall be provided in a timely manner. Notwithstanding any provision to the contrary, the Legislative Budget Board may suspend the approval of a request at any time pending the receipt of additional information requested of TPWD.
- (c) **Informational Listing - Allocation of SGST.** Amounts appropriated and allocated in this Act include all amounts authorized in Article VIII, Section 7(d) of the Texas Constitution and Tax Code, Section 151.801, estimated to be \$196,900,000 in fiscal year 2022 and \$207,900,000 in fiscal year 2023 in sales tax receipts deposited to the General Revenue Fund generated by sales of

sporting goods items. These appropriations shall be allocated for the purposes specified, and the Comptroller shall make transfers, including for direct appropriations, benefits, debt, and any amounts necessary for estimated transfers to other agencies, as shown below.

Amounts for benefits, retiree insurance, and debt service are estimated. Amounts may be shifted between these categories as necessary to cover actual costs for these items.

Appropriations for debt service payments are made in accordance with the provisions of Art. IX, Sec. 17.08 of this Act, Use of the Sporting Goods Sales Tax Transfer to the General Revenue-Dedicated State Parks Account No. 64.

In the event that the sum of the actual costs for benefits, retiree insurance, and debt service exceeds SGST amounts available for these purposes, the additional amounts shall be funded from the available remaining balance of the State Parks Account No. 64.

- (b) **Statewide Behavioral Health Coordinating Council.** Each agency identified in subsection (a) of this provision, with the exception of the Texas Higher Education Coordinating Board and Article VIII, shall designate an individual to serve as a member of the statewide behavioral health coordinating council, established by Article IX, Section 10.04(b), 2016-17 General Appropriations Act (GAA), Eighty-fourth Legislature, 2015, and may use funds appropriated by this Act to support that council. In addition to the agencies identified in subsection (a) of this provision, the Texas Department of Housing and Community Affairs, the Texas Workforce Commission, and the Texas Education Agency shall each designate an individual to serve as a representative on the council. The Texas Mental Health Care Consortium shall designate an individual to serve as a representative on the council. Any other state agency or institution that receives funding in this Act and provides specific behavioral health services may participate in the meetings and discussions of the coordinating council. The Mental Health Statewide Coordinator at the Health and Human Services Commission (HHSC) shall serve as chair of this council. The coordinating council shall meet at least once quarterly during fiscal years 2022 and 2023, or more frequently if determined necessary by the Mental Health Statewide Coordinator at HHSC.

HHSC shall require certain community collaboratives that receive state grant funding to present twice annually on the impact each collaborative has had on project implementation and mental health outcomes on the population served by the grant funding. These community collaboratives shall include community collaboratives as defined by Government Code, Chapter 539; community recipients of a grant for veterans' mental health pursuant to Government Code, Section 531.0092; recipients of a grant through the Mental Health Grant Program for Justice-Involved Individuals; and recipients of a grant through the Community Mental Health Grant Program. It is the intent of the Legislature that these presentations serve as an opportunity to increase collaboration for the effective expenditure of behavioral health funds between state and local entities. No provision of this Act may be construed as granting the statewide behavioral health coordinating council authority over local projects implemented by the collaboratives listed above.

- (c) **Statewide Behavioral Health Strategic Plan.** The purpose of the statewide behavioral health coordinating council shall be to implement the five-year Statewide Behavioral Health Strategic Plan published May 1, 2016, per Article IX, Section 10.04(b), 2016-17 GAA, Eighty-fourth Legislature, 2015. The Statewide Behavioral Health Coordinating Council shall submit an annual report to the Governor, and the Legislative Budget Board including the progress of the strategic plan's implementation no later than December 1 of fiscal years 2022 and 2023. The report shall include coordinating council agency participation and how the strategic plan's implementation serves to coordinate programs and services to eliminate redundancy, utilize best practices in contracting standards, perpetuate identified, successful models for mental health and substance abuse treatment, ensure optimal service delivery, and identify and collect comparable data on results and effectiveness. The coordinating council shall annually update the inventory of behavioral health programs and services. The inventory shall describe how the identified programs, services, initiatives, and expenditures further the goals of the Statewide Behavioral Health Strategic Plan. HHSC shall make available the five-year strategic plan update and the inventory of programs on HHSC's website no later than December 1 of each year.

The Council shall also collaborate with the Board of Pharmacy and the Medical Board to create a sub-plan related to substance abuse. The sub-plan shall include challenges of existing prevention, intervention, and treatment programs, evaluation of substance use disorder prevalence, service ability, gaps in current services, and strategies for working with state agencies to expand treatment capacity.

- (d) **Coordination of Behavioral Health Expenditures.** The coordinating council shall submit to the Executive Commissioner of HHSC for approval a coordinated statewide expenditure proposal for each agency, which shall include the appropriation amounts identified in subsection (a) of this provision. The expenditure proposal shall describe how the identified appropriations at each agency or institution would be spent in accordance with, and to further the goals of the approved statewide behavioral health strategic plan. HHSC shall submit the coordinated statewide behavioral health expenditure proposal to the Legislative Budget Board by September 1, 2021, for fiscal year 2022 and by July 1, 2022, for fiscal year 2023. The plan shall be considered to be approved unless the Legislative Budget Board issues a written disapproval by November 1, 2021, for fiscal year 2022, or by September 1, 2022, for fiscal year 2023.

Notwithstanding any other appropriation authority granted by this Act, the Comptroller of Public Accounts shall not allow the expenditure of General Revenue-Related funds identified in subsection (a) by a particular agency if the Legislative Budget Board provides notification to the Comptroller of Public Accounts that the agency's expenditure proposal has not satisfied the requirements of this provision. If fiscal year 2022 or fiscal year 2023 General Revenue-Related funds are used to provide services required by federal law, are related to court-ordered treatment, or required as the result of administrative proceedings, the funding for these services shall still be included in the proposal, but these funds shall not be contingent upon approval.

The coordinated expenditure proposal shall be developed in a format specified by the Legislative Budget Board, and shall, at a minimum, include expenditures related to each program identified in the program inventory required by subsection (c) of this provision, identified by fund type. Behavioral health-related Medicaid expenditures shall also be included as a separate line item for each agency.

- (e) No later than January 15, 2023, the coordinating council shall submit to the Executive Commissioner of HHSC and the Legislative Budget Board a report regarding the coordinating council's thorough review and complete vetting of all behavioral health exceptional items submitted with each agency's legislative appropriation request.
- (f) **Report on Suicide and Suicide Prevention.** Out of funds appropriated elsewhere in this Act to HHSC, the coordinating council shall provide an update to the report on suicide and suicide prevention in Texas required by House Bill 3980, Eighty-sixth Legislature, Regular Session, 2019. The report shall include data and recommendations specific to suicides among veterans and foster youth in the state. The coordinating council may collaborate with the Texas Veterans Commission, the Department of Family and Protective Services, and other agencies that the coordinating council deems necessary in order to receive data on veterans or foster youth to help conduct the study. The coordinating council shall submit the updated report to the Legislative Budget Board and Governor's Office not later than September 1, 2022.

For state accounting purposes, EFF are defined as revenues collected from federal receipts and deposited into the state General Revenue Fund as Comptroller revenue object codes 3602, 3702, 3726, 3745, 3750, 3773, 3851, and 3971.

If the Comptroller finds the information sufficient to support the revenue stream as a new collection, a finding of fact shall be issued and the additional EFF collections are appropriated subject to the notification requirements in Subsections (c) and (d).
- (k) **Audit.** The depositing and classification practices of Earned Federal Funds by agencies referenced above shall be subject to audit by the State Auditor's Office.

Sec. 17.21. Informational Listing: Federal Elementary and Secondary School Emergency Relief Funds. The following is an informational listing of Elementary and Secondary School Emergency Relief (ESSER) funds appropriated under the federal Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, 2021, and the American Rescue Plan (ARP) Act of 2021 that are directly available to school districts and open-enrollment charter schools during school years 2020-21 through 2022-23 (CRRSA) and 2023-24 (ARP).

CRRSA Act	\$ 4,976,596,988
ARP Act	\$ 11,176,729,900
Total, ESSER Funds	\$ 16,153,326,888

These funds are to be issued to school districts and open-enrollment charter schools by the Texas Education Agency following a formula calculation prescribed by federal law. Eligible school districts and open-enrollment charter schools may use these funds to support learning loss recovery for students whose academic process was disrupted by the COVID-19 pandemic, and to address an extensive range of operational needs.

It is the intent of the Legislature that these funds be used for purposes that are one-time and targeted in nature, and that no school district or open-enrollment charter school use the funds to create an ongoing obligation that cannot be sustained within existing state and local funds.
