26 reasonable likelihood, cause the death of the woman's unborn child.
27 The term includes off-label use of drugs, medicines, or other

1 substances known to have abortion-inducing properties that are
2 prescribed, dispensed, or administered with the intent of causing
3 an abortion, including the Mifeprex regimen, misoprostol

25 Rh incompatibility, complications, or miscarriage in future
26 pregnancies;

27 (5) document whether the pregnant woman received

1 treatment for Rh negativity, as diagnosed by the most accurate
2 standard of medical care; and

3 (6) ensure the physician does not provide an

27 SECTION 8. Any provision of this Act held to be invalid or
