--

It is assumed that the costs associated with the bill's provisions relating to a continuing review and revision of the essential knowledge and skills of the public school foundation curriculum and proclamations for the production of instructional materials could be absorbed using existing resources.

**Local Government Impact**

School districts, open-enrollment charter schools, and other educational entities that receive a technology and instructional material allotment (TIMA) in accordance with TEC 31.0211, may have minimal fiscal impact due to the bill proclamation limitations on percentages.
