<b>No significant fiscal implication to the State is anticipated.</b>
---

The bill would amend the Water Code to require the Texas Commission on Environmental Quality (TCEQ) to give notice to owners or operators of each public water supply system that would be effected from contaminated water that is a source of public water that the agency has detected or become aware of within timeframes established in the bill. Based on the analysis of the TCEQ, it is assumed that duties and responsibilities associated with implementing the provisions of the bill could be absorbed with existing resources.
